- Coordinate a unified message of Task Force members, executive and legislative branches of Florida government, congressional members and defense communities.
- Maintain a proactive posture, assisting the Department of Defense in its effort to find efficiencies and develop synergies in the face of necessary military mission consolidations or realignment actions.
- Help Florida communities become better prepared to present the Department of Defense with viable options and opportunities where realignment or consolidation actions are being considered.
- Identify, prioritize and address all current or potential base and range encroachment issues including, but not limited to airspace, environmental, energy, frequency spectrum and land use compatibility
- Foster mutually beneficial communication and strengthen relationships between the state of Florida, installation leadership and community leaders.
- Enhance the Florida Congressional Delegation efforts in working defense and security issues at the federal level.

- Focus on advocacy efforts to obtain results which are mutually beneficial to Florida and the defense community.
- Identify the military value of Florida installations using core Department of Defense criteria and the results of previous data calls.
- Assist the Governor's office in addressing and supporting the needs of Florida's installations identified as the result of base commander's meetings.
- Champion and continue legacy of Florida's warmth, embrace and respect for military family quality of life.
