

No Multi-Million Gallon Sewage Storage Tanks Near Neighborhoods

Petition published by North Hill Preservation Association, Inc. on Feb 16, 2016

Background (Preamble):

The Emerald Coast Utilities Authority (ECUA) has purchased the former Medical Center Clinic at 1750 North Palafox Street in Pensacola, Florida and intends to build above ground, highly visible storage tanks for the storage of up to 8-million gallons of untreated sewage.

ECUA claims that it will only be used for Emergencies, but during their February 8th meeting, staff confirmed that the scenarios for tank use are more aligned to periodic use. The Citizens of Pensacola and the ECUA rate payers have contributed almost \$300 million to see these odorous facilities relocated to 2,200 secluded acres, 27-miles away from Downtown Pensacola, far from neighborhoods and commercial businesses.

No Environmental Impact Study or Economic Impact Study was performed on the impact of this project adjacent to a neighborhood listed on the National Register of Historic Places, on one of Downtown Pensacola's Primary Corridors into the City. No Public Notice was given to residents about the project or the intended use for the former hospital property.

Petition Text:

We, the undersigned, call on ECUA to re-evaluate the selection of this site for their proposed project and encourage them to locate untreated, raw sewage storage facilities on property in the Industrial Zoning District where it will not negatively impact the quality of life, and property values of our City's many residential districts.

Total signatures 802 (Signature comments can be viewed in the Appendix of this document)

[Back to signature list](#)

No ECUA tank project near or in Historical North Hill

800 Jill Duncan

[Back to signature list](#)

NO to sewage tank in NORTH HILL Neighborhood.

790 Eric Leath

[Back to signature list](#)

I grew up in North Hill, and am in the process of re-locating to downtown Pensacola. There is nothing more horrendous looming over Pensacola than this.

779 Patricia Sumner

[Back to signature list](#)

No thanks to the Tanks. They should be built in an Industrial Zoning District. Raw sewage does not belong in a residential neighborhood and the smell would permeate downtown Pensacola.

778 robert ford

[Back to signature list](#)

THIS IS NOT THE PUBLICS CHOOSEN FUTURE FOR PENSACOLA!

774 Allan Lamberti

[Back to signature list](#)

My firm, Billiken Group LLC, is developing property in North Hill and we object to the planned use of 1750 N. Palafox Street by ECUA.

772 Ronald D. Johnson

[Back to signature list](#)

We have lived with this pollution for too many years without regard to the detrimental impact on the health of the citizens of the community. Now that there is an economic impact maybe we will get some long overdue action by the governing powers to do the right thing.

769 Sara Haynie

[Back to signature list](#)

The citizens of Pensacola have contributed millions to have the old facility relocated it is a shame to build another one that is just down the road from the previous one. I am quite sure there is other areas that could be considered . I have live in this area for 45 + years. There is a hospital in this area also. Councilman you need to work for the people . This is a bad move.

765 Samantha Faver

[Back to signature list](#)

Find a better option.

759 Sharon Singleton

[Back to signature list](#)

I worked for 10 years close by the old sewage plant downtown and many times upon leaving from work the smell was so strong it permeated the entire area and you would have to run to your car to escape the smell. ECUA needs to be held accountable and stop their actions to re-create this scenario. I am 100% against ECUA to locate a raw sewage plant near ANY neighborhoods and businesses. How embarrassing for us, our visitors, and tourists to be subjected to the duplication of "Old Stinky" again. Speaking from someone who has been there done that!!

758 Lou Courtney

[Back to signature list](#)

No tanks downtown!

757 MAGGIE KIDD

[Back to signature list](#)

foul odor!!!!!!!!!!!!

756 Wendy McCullar

[Back to signature list](#)

This does not belong in a neighborhood where my 3 kids are growing up and we have lived here 11 years.

751 Jay Helms

[Back to signature list](#)

Plenty of room near Molino for these things.

750 Kathleen Moran

[Back to signature list](#)

Please don't make beautiful downtown Pensacola stink again!!

735 Patricia Collins

[Back to signature list](#)

What are you Elected Officials thinking. Do not take the money we have contributed to ECUA and destroy my quality of life and our neighbors. Edward and I purchased our sweet home January 2016. Two weeks later it was in the paper. We would never have considered purchasing this residents. No one would.. Why have you lied and said it was going to be relocated 27 miles away from downtown Pensacola. Would you be willing to purchase and live where my home sits? Just come and sit for an hour or two. Then, tell all the home owners and renter's that you are willing to purchase a home right here. I don't think so.

Do what you were elected for. Have you forgotten? It is working for the people that elected you. We Don't Want Huge, Odorous Tanks in Our Front Yards.

730 Deborah Dunkerley

[Back to signature list](#)

QUIT ADDING FLUORIDE.

725 John Jones

[Back to signature list](#)

Say no to ECUA sewage tanks in North Hill Historic District!

723 Allyson Sommer

[Back to signature list](#)

Moving back to Pensacola.

721 Ann Richardson

[Back to signature list](#)

No way do we want this in our City!!! There are plenty of areas not located near people to put it!!!

714 Janet Puskar

[Back to signature list](#)

I understand the need for these storage tanks, but would like to see more consideration given to being less obtrusive and in the right location.

712 Harold Mobley

[Back to signature list](#)

"No thanks" to the tanks in our neighborhood. Sewage stinks and sewage tanks degrade and devalue our neighborhood. Please, no tanks.

710 Linda Schoenbein

[Back to signature list](#)

No tanks above ground!!!

708 Mary McCaa

[Back to signature list](#)

I'm saying NO to sewage tanks in our neighborhoods

703 Thomas Doyen

[Back to signature list](#)

Please don't distroy my neighbor!

693 Charlotte Blakeman

[Back to signature list](#)

Move the tanks...

691 Jason Waddell

[Back to signature list](#)

Love the idea of building on superfund site. Should be unseen or in an industry section not near anyone's residence.

687 Nichole Williams

[Back to signature list](#)

Let's move forward, not backwards. It's time to leave the days of "Old Stinky" behind! Let's find a better plan!!

684 Roberta Thompson

[Back to signature list](#)

Find a better place for these tanks. Pensacola is trying hard to better the town, don't add to the problem

682 Leanne Easteal

[Back to signature list](#)

We finally get the crap plant out of downtown, and they want to pull this stunt?

677 Mark Moore

[Back to signature list](#)

Pensacola is in a growth period and so much of what is being revitalized is due to the removal of the old plant. There are better locations in industrial areas of the county.

675 Kyle Owens

[Back to signature list](#)

No sewage tanks that negatively impact neighborhoods and positive development.

674 Rusty Dixey

[Back to signature list](#)

A giant sewerage tank right next to downtown? Really? How can you possibly justify this in a coastal town susceptible to hurricane damage?

668 Megan Brees

[Back to signature list](#)

Main street and the neighborhood around it reeked my entire life from the sewage plant. ECUA says it won't use it except in emergencies. I don't buy it. Look up how many times untreated sewage "escaped" from the former downtown tanks. The lack of transparency is appalling.

667 Rachel Mahone

[Back to signature list](#)

This is a horrible idea. What are you thinking??

662 Robert Dixey

[Back to signature list](#)

Why does the area that is lower and middle class have to deal with this? Seems that's always the case.

659 Tara Taylor

[Back to signature list](#)

These tanks near people's home are unacceptable.

656 Diane Dixey

[Back to signature list](#)

This has got to be THE stupidest idea I've ever heard. Palafox St, for all of it's warts, remains a gateway to Downtown. A perfect place to store sewage. Not.

647 Karen OBrien

[Back to signature list](#)

I think it is horrible what ECUA is doing. No regards for the people that live in and love this city.

644 Mandy Glickman

[Back to signature list](#)

Move tanks to Fairfield. The old Conoco site.
It is already ruined

642 Johnnie Jones-Arant

[Back to signature list](#)

This is a horrible idea. WE DON'T WANT THIS SO CLOSE TO WHERE WE LIVE!!! FIND a more suitable location - FAR AWAY from downtown.

638 Chris Phillips

[Back to signature list](#)

I do not live in the immediate area but I do frequent downtown area which will be effected by odor.

635 Buddie Wilson

[Back to signature list](#)

Disclosure of intent is necessary-when was that going to happen>

632 Edwinna Williams

[Back to signature list](#)

These should be in industrial parks not near our families!

631 Ashley Brown

[Back to signature list](#)

Keep sewage tanks out of prime residential areas please!

630 Michelle Martinez

[Back to signature list](#)

Although I live in Gulf Breeze, I enjoy spending time I downtown. I was glad when the tanks were removed from the shoreline because of the constant smell of sewage. Now, we will have that issue again with these tanks on Palafox.

628 Katheryn Foreman

[Back to signature list](#)

I am afraid I don't understand why you would even consider bringing that filth to a neighborhood when there is an industrial park available for just such a purpose. My children and grandchildren should not have to be put in harm's way because it is more convenient for you to do the wrong thing than it is to do the right thing. Clean up your act!

620 Heather Williams

[Back to signature list](#)

I am moving to east hill and chose this neighborhood for the beauty and feel this is a huge negative for the area, I remember driving by the previous plant off bay view/main; it was horrible for the area; find another location!

617 Melita Duffy

[Back to signature list](#)

Please relocate these sewage tanks on other property in the Industrial Zoning District, where they will not negatively impact quality of life and property values of surrounding neighborhoods!

616 william menges

[Back to signature list](#)

i strongly oppose this sewage tank & the underhanded way ecua approached it. I have a biweekly show on blab tv-the catchin fish show-every other mon @ 6:30pm--next show is mon mar 21-if you want anything or info broadcast pls let me know by email--thx

614 Linda Stacks

[Back to signature list](#)

Move them one mile north - contaminated area

613 Lisa Espenscheid

[Back to signature list](#)

No tanks downtown !!!!!

609 Hilda Jones

[Back to signature list](#)

Why not use the Superfund site?

604 Sharon Traud

[Back to signature list](#)

I lived in Pensacola for many years. It is unthinkable that you would even consider putting sewage storage tanks in this area. The people who live here have worked hard to revitalize and support the community. It has become a wonderful example of residents preserving a historic section of Pensacola - An interesting, eclectic mixture of many home styles in various price ranges: a walking, bicycling neighborhood. We all remember the stench when you drove along the roads near the old storage tanks. You will destroy not only the ambiance & beauty but property values as well.

We urge you to seek out a different site away from residential neighborhoods to place your tanks. There MUST be a better location. There HAS to be a better solution !!

602 Richard Bruce

[Back to signature list](#)

i am opposed to construction of the tank in N. Hill.

601 Matt Harr

[Back to signature list](#)

We, the undersigned, call on ECUA to re-evaluate the selection of this site for their proposed project and encourage them to locate untreated, raw sewage storage facilities on property in the Industrial Zoning District where it will not negatively impact the quality of life, and property values of our City's many residential districts.

600 Meredith Doyen

[Back to signature list](#)

This is terrible for our neighborhood and all adjoining neighborhoods. This is environmental racism and targets 2 lower income neighborhoods. ECUA should be called out for planning this in secret and pursuing it regardless of the community concern.

598 alice fay Baker

[Back to signature list](#)

This could easily be moved to the Super Fund Site @ Fairfield & I-110 or some other location that would have far less impact on the surrounding area. The historic beauty should be persevered of North Hill and our Downtown area. The citizens have paid millions of dollars to have a location like this moved.

586 Todd Bryson

[Back to signature list](#)

We the people paid to remove this. Do not do it. It's not your call.

577 Ronald Malone

[Back to signature list](#)

I live 1/2 block from the proposed sewage storage tanks // i can't wait to have friends over for a cookout so they can see/smell/admire the tanks from my back yard.

576 Mary Todd

[Back to signature list](#)

We have been working very hard in making downtown Pensacola viable again. This project is only a short distance up Palafox from our downtown area that people would like to work, live and enjoy life in. I feel that this is a very bad choice. Please consider another site.

572 Cary Koontz

[Back to signature list](#)

This should be an open discussion. This will affect property values!

565 Evan Edwards

[Back to signature list](#)

this is a travesty, completely unbelievable.

563 Julie Tippins Parker

[Back to signature list](#)

move to the industrial area nearby away from residences

550 John Terrezza

[Back to signature list](#)

Don't put these in our neighborhood.

545 Gigi Vilardi

[Back to signature list](#)

I grew up in north hill, downtown pensacola and my family still has the house in north hill. I love north hill. It's a magical neighborhood full of amazing homes and people. Everybody is so kind and family friendly it's a very family friendly neighborhood. It reminds me of a real neighborhood in the 90s when you actually know your neighbors and the kids were outside playing ALL day until the street lights came on and you didn't have to sorry about anything bad happening.

Let's keep downtown Pensacola magical and putting this icky sewage crap there is going to take away the magic of North hill and Pensacola's up rising downtown so please sign this petitions.

534 Terri Ludvigsen

[Back to signature list](#)

ECUA has not been honest with the public! These proposed tanks are too close to homes and will Damage property values!

532 Elizabeth McClure

[Back to signature list](#)

Please reconsider defacing and polluting our beautiful city which we have worked so hard to keep up. If you stink up our neighborhoods again and our downtown region, we will lose tourism and inhabitants, and you will certainly lose money and business. No one wants to buy a house next to sewage, and no one wants to walk around a city that smells like human waste. There are plenty of other places you can build these tanks, and if you persist with placing them on our beloved Palafox street, public outrage will most certainly ensue. It would be much easier for you to stop now before we must put up an even bigger fuss. Pensacola is OUR home. Politely take your sewage elsewhere.

530 Melanie Jacobi

[Back to signature list](#)

This is a part of town where I work and play. This appears to be a poor use of land on a major north-south thoroughfare through our community.

525 Philip Benton

[Back to signature list](#)

We spent so much money to move sewage north why now to bring tanks back toward central town.

520 Sheila Mortensen

[Back to signature list](#)

As I recall there is an old super-fund site north of proposed site. Why not just move it there?

519 Christopher J. Lewis

[Back to signature list](#)

This seems further evidence why ECUA - a special purpose government and independent special district of Escambia County - should be abolished by the Florida Legislature as proposed in recent years and its governmental functions absorbed into the Escambia County government where there will be more transparency and political accountability. A similar petition should be started asking the Escambia County Board of County Commissioners to petition the local state delegation to address the ECUA issue during its 2017 session with effective date of July 1, 2017. In 2009, ECUA was opposed to Consolidated Government because those of us on the commission were told the elected officials all wanted to keep their jobs with sweet salaries and pensions. Enough is enough. Escambia County should hire UWF's Haas Center to determine how much money can be saved by eliminating ECUA's extra elected officials who operate in secret and extra senior management structure.

516 Ed MacDonald

[Back to signature list](#)

There are many more suitable locations for the tanks. We don't want the cheapest alternative to be the one we have to live with and cause our property values to deteriorate.

509 Meredith Jones Wolf

[Back to signature list](#)

I strongly oppose the Tanks. Keep them out of our neighborhood

506 Katherine Massey

[Back to signature list](#)

We have frequently visited our friends who live in this area and are considering moving to North Hills. We will be reconsidering this move, however, if this project goes through.

500 Patricia Neese

[Back to signature list](#)

I visit downtown frequently and do not want to see sewage tanks. The smell was terrible when the waste sewage plant was there. Let's not do that again.

499 Julie Travis

[Back to signature list](#)

I visit Pensacola frequently, and would be appalled if you build these raw sewage tanks on this property -- please reconsider your decision

498 Pam Stranahan

[Back to signature list](#)

EPA study should be done.

496 Dianne Blair

[Back to signature list](#)

Public Hearings should be held.

494 Alexandra Parker

[Back to signature list](#)

ECUA: Please consider moving this project to another area that will not affect homes and families in the North Hill Area.
Alexandra Parker

491 Jill Azaria

[Back to signature list](#)

As a frequent visitor to this area I had thought about retiring there sometime next year. I am greatly disturbed to hear about what is going on and ask you to please change the proposed site and move it to the Industrial Zoning District!

488 Maryann Parker

[Back to signature list](#)

Citizens deserve knowing what is proposed for their community

487 Beverlee Constable

[Back to signature list](#)

I'm sick of these things being railroaded, or attempted to be railroad without adequate notice and information. It's not just ECUA, it's all various government agencies. I'm still upset about the Old Growth Oaks cut down on Scenic Highway and the list of other abuses could continue but I won't due to space constraints.

486 charlie barton

[Back to signature list](#)

sewage storage tanks should be zoned into industrial or agricultural districts

485 Teresa Preston

[Back to signature list](#)

Another bad move by the ECUA. Put sewage storage tanks somewhere besides a residential neighborhood.

483 Jenny Ruff

[Back to signature list](#)

I just keep wondering why...Why were we not informed of these plans before they had been completed? Why keep us in the dark? So similar to what happened with the Coca-Cola building. What is ECUA afraid of?

We Are North Hill!

480 Cheri Hogan

[Back to signature list](#)

Sewage tanks do not belong in neighborhoods. There are more suitable places for things like that.

475 MARK STRAUSS

[Back to signature list](#)

I don't see how the planned sewage storage tanks fit into the planned beautification project of Palafox St that is supposed to extend north to Yonge St.

This is not the type of use that will add appeal to the Palafox corridor to downtown Pensacola.

I don't believe that the tanks will only be used in emergencies only, and am concerned about the odor they will emit.

463 Jamshid Kholdi

[Back to signature list](#)

How dare you play with people's property values so casually?

By putting those tanks you are reducing people's property values by substantial amount, the closer to the tanks, the more reduction in values.

Have any of you people have thought about what that will do to city finances, in the long haul?

I urge you to reconsider the location of these tanks. You must think long term, not just the duration of your board term or how close you are to retirement. What you do today will have to be lived with for decades.

461 Lisa Mead

[Back to signature list](#)

Why does the city make NO effort to stand up for and protect either its citizens or its irreplaceable historic districts? SEWAGE tanks??? On PALAFOX??? The mind boggles at the shortsightedness of this poorly thought out endeavor. After years of effort to move the tanks and treatment out of downtown because of overwhelming odor? Once in place, there is nothing to prevent these massive tanks from being used for more than "emergencies." Who defines what constitutes an "emergency" anyway?

Please DO NOT place these massive sewage tanks right next to a neighborhood - or in a commercial rather than the appropriate industrially zoned area. ECUA's furtive attempt to sneak such a site into a neighborhood stinks every bit as much as the sewage tanks themselves.

456 George Mead

[Back to signature list](#)

There is not justification for this loc.ation when industrial areas are but blocks away

449 Diane Winger

[Back to signature list](#)

Not near a residential area

448 Jeffrey Martin

[Back to signature list](#)

Sewage tanks do not belong adjacent to National Historic sites.

445 Linda Jones

[Back to signature list](#)

Please relocate to an industrial area more suited to this purpose. The Palafox corridor should be developed as an extension of the downtown area. If you locate the sewage tanks here, it is going to affect the redevelopment of this area for many years in the future. Please don't!

439 Dorothy Dubuisson

[Back to signature list](#)

Move these to a nearby industrial location... do not cripple another geographic area as you did the downtown Tanyard for decades!!! We paid 19 million to get rid of these tanks, not to destroy another locale within the city!!!

436 Mack Smith

[Back to signature list](#)

For sure NOT downtown or anyplace else if there another way.

433 Sara Howland

[Back to signature list](#)

We taxpayers need to get what we paid for, not something that could adversely affect our community.

430 Brian Moore

[Back to signature list](#)

This needs to be outside the city.

429 Margaret E Rhea

[Back to signature list](#)

Placing these sewage storage tanks at the former Medical Center site permanently damages the potential for the overdue redevelopment of the North Palafox St corridor. The entire area around the Medical Center, which includes the old Coke Cola plant and the Long Hollow lake, must be retained and developed in a manner consistent with the historic nature of the North Hill and Long Hollow communities.

427 BRYANT HARRIS

[Back to signature list](#)

After enduring the fool odor of the former waste water treatment site on Main Street for many years, why would the City of Pensacola want to store the sewage, again, within the City Limits is beyond comprehension. There has to be an alternative this...

425 Debbie Owens

[Back to signature list](#)

Please relocate the storage sewage tanks.

421 Annie Brown

[Back to signature list](#)

I find it tragic that we would put this solution so close to an historic neighborhood which supports the wonderful blooming of our downtown area. This neighborhood has also experienced a resurgence in the last few years.

Why are you not going up Palafox street a few miles into an industrial area? I find this solution to be out of alignment with at last Pensacola's growth through good solutions.

418 Ginger Caro

[Back to signature list](#)

I can't believe that after all the expense to move unsightly, smelly, utilities out of our beautiful downtown area that we are fighting this stupidity again. shame on you, ECUADOR and downtown Pensacola planning board.N

417 Jo Green

[Back to signature list](#)

After decades of redevelopment both public and private, this is absolutely no place for sewage storing .

415 Stephanie Wilhelm

[Back to signature list](#)

The addition of raw sewage tanks to the historic entry corridor to our thriving historic downtown will make the City's plan to promote the economic revitalization and beautification of this corridor impossible to achieve. As such, it will rob the City of significant future tax revenues.

The demolition of this well-preserved Mid-Century Modern building would remove one of the few character defining structures in this area. It's architectural integrity and historic significance within the context of Pensacola's development should not be overlooked and, instead, should be used as "tinder" in the revitalization of the Palafox Corridor. Placing raw sewage tanks directly adjacent to this building will destroy its future viability and that of any structures or parcels in that area. IS THE CITY GOING TO ALLOW SANITATION ENGINEERS TO CONTROL THE FUTURE OF OUR BEAUTIFUL, HISTORIC AND ONCE-AGAIN FLOURISHING DOWNTOWN?

411 Pamela and Harry Schwartz

[Back to signature list](#)

Raw sewage storage should be in industrial zones which will not impact residential areas. Major traffic corridors with such great visibility leading into downtown Pensacola should not allow this type of construction.

410 Heather Tarnosky

[Back to signature list](#)

Please reconsider and help to keep our city a beautiful one. There are zoning areas for these purposes and should be used as such. Thank you!

405 Pat Regan

[Back to signature list](#)

This would be an unacceptable use of this property. It is goes through two historic districts and is the gateway to our beautiful downtown.

This would be a wonderful place for housing and would have a view of the parklike holding pond behind it and within walking distance of First City Art Center. The city need to think about positive additions and not raw sewage that could contaminate Long Hollow and the holding pond if it leaked.

402 Jack Coker

[Back to signature list](#)

I am strongly opposed to this facility locating in our residential area. I am very concerned with the odors emanating from this facility as well as the negative impact it will have on my propert value. It should definitely be located in an industrial area.

394 Kari Traud

[Back to signature list](#)

Please do not put the tanks at the Moreno station. I live two blocks from there and love my house and neighborhood. I do not want my property devalued or have sewage smells. There is a reason why you removed it from downtown. Please take the high road and do what's right for the community and locate the tanks in an industrial zone where houses won't be impacted. You can do it if you do what's right for the community. My house will be heavily impacted if you do put it on Moreno. The more you help protect our communities and help the re-establishment of downtown Pensacola the more we all reap the benefits. Thank you for thinking of us and coming up with an alternative!

384 Bonnie Robertson

[Back to signature list](#)

Vision for the needed growth of Pensacola does not fit with the plan to use this property as a sewage dump. Already the original plans of removing the odor and use of prime property is now being changed at the expense of the taxed citizens of this community. A sham to hide what you intended all along.

382 Peggy Enslow

[Back to signature list](#)

I am concerned about the aesthetics of my neighborhood. Please find somewhere less visible to put these tanks.

381 Ron Martin

[Back to signature list](#)

Site is too close to neighborhoods and historic North Hill. Real eyesore to the north corridor of one of the 10 best streets

in America.

379 Joe DeReuil

[Back to signature list](#)

I would like to see that section of Palafox beautified. It was once a vibrant street, as evidenced by the building that is on the site. I believe that as time goes on, more people will move closer to downtown and that section of Palafox will be more commercial. I also think that someone could do something with that building, which is a significant structure.

376 Mac McLeod

[Back to signature list](#)

We do not want that smell back

375 Shelby Topp

[Back to signature list](#)

No sewage in N Hill!

370 JODI ALLEN

[Back to signature list](#)

This will be bring back the unpleasantness that we worked so hard to get rid of in downtown Pensacola. Please don't do this to us again.

364 Jevon Young

[Back to signature list](#)

Housing waste treatment/storage facilities near residential (or business) areas is, in my opinion, one of the reasons the development of Downtown took so long to come to fruition. Please don't bring our town back down that road! I imagine that locating the tanks further away will increase operating costs. I am willing to pay for my fair share of these costs to ensure the integrity, safety, and health of our neighborhoods here in Pensacola. Do the right thing for your citizens!

354 Richard Clarke

[Back to signature list](#)

Don't put these tanks in a residential area.

351 Scott Canavello

[Back to signature list](#)

This is a ridiculous idea.

347 Kristen Sappington

[Back to signature list](#)

I work at 1310 N 12th ave., Pensacola, FL 32503

342 craig conn

[Back to signature list](#)

If ECUA decides to put this in a neighborhood..... let's make it in the neighborhood of their board members.

Think that would EVER happen?

338 Daniel Newman

[Back to signature list](#)

No way! No how!

332 Rob Hutchinson

[Back to signature list](#)

My office is within a mile of this location and this will be detrimental to our business.

329 ROXANNE HILTON

[Back to signature list](#)

Please. We are trying so very hard to improve the overall quality of downtown Pensacola, not just for local residents, but for tourists other visitors to the downtown area. PLEASE put the sewage tanks in an industrial area, NOT in downtown Pensacola!

328 Sharon Morette

[Back to signature list](#)

I own commercial property in this area and have been negatively impacted, both economically and personally, twice now by the overflow from Long Hollow "Pond." Does the city really feel that placing another deterrent to the viability of owning property producing jobs in this area would be in the best interest of anyone?

326 Jim Goldman

[Back to signature list](#)

live at 105 East Desoto

322 Mary Carroll

[Back to signature list](#)

Sewage Tanks don't belong in anyone's residential neighborhood.

316 TW Stone

[Back to signature list](#)

Nope, this is not a good idea~!

313 Dennis LaMontagne

[Back to signature list](#)

Please find another place for this project. There is no doubt that storing raw sewage will have a negative impact on homes and businesses in our neighborhood.

311 Gregory Lamb

[Back to signature list](#)

What sense does it make to foul the heart of Pensacola when hundreds of suitable sites are available? Are we going to infill our community with "development" that guarantees lower property values, stench, and is a black eye to the community volunteers who have worked hard to make this a better city?

307 Kristopher Mann

[Back to signature list](#)

Do not ruin what this city has worked so hard to build. Our historical and revitalized downtown will suffer greatly. Residents do not deserve to put up with the odor and eyesore of this project. Tourists who now flock to our downtown area will surely not return and share their experiences in our city.

306 Diane Dixey

[Back to signature list](#)

Ridiculous

304 tessie williams

[Back to signature list](#)

It is sinful the way jobs and projects are worked under the table.

298 Marc Bechtol

[Back to signature list](#)

Industrial projects belong in industrial areas. No private business owner would be allowed such a project unless many bribes were paid.

296 Stephen Stojcich

[Back to signature list](#)

This is an unacceptable location for the proposed tanks. Why would ECUA, after removing the downtown sewerage plant, propose a facility that would be located in hats as egregious a location? This would be the death of any redevelopment of this area.

291 Ione Calhoon

[Back to signature list](#)

This community has worked hard to have the sewage facility downtown moved far out into the county to improve the environment downtown and help improve real estate value. This feels like a betrayal and threatens property values and value of life. Do not build this facility in North Hill. The odors alone are reason enough to move it.

277 Gregory Young

[Back to signature list](#)

I'm 100% against putting these sewage storage tanks at the Palafox address near the Northhill neighborhood. People have worked too hard and have spent hard earned money to fix up their houses all along the Palafox street and in the various neighborhoods.

273 Pamela Nichols

[Back to signature list](#)

I used to live in Pensacola and I remember the stink of the old sewage treatment plant and tanks. So much more enjoyable visiting without the awful smell, especially with all the new growth in town! I would be afraid business would move out when the smell moves back in!

272 Rachel Trahan

[Back to signature list](#)

Why did we pay to move raw sewage out of the City, only to move it back in? For emergency purposes? Yeah right. It won't stink? Right. Put the tanks at the Superfund site one mile north

267 John Ellis

[Back to signature list](#)

While it might be argued that this is a community need, it appears little consideration was given for community input, and thus, I cannot support the storage tanks.

265 Tesha Gordon

[Back to signature list](#)

No to the holder tanks

264 Lance Fulton

[Back to signature list](#)

These tanks do not belong in a historic district

260 Antonia Wickersham

[Back to signature list](#)

Please place these facilities in a properly-zoned location. It is currently proposed to be placed at a site that would adversely effect so many established neighborhoods, specifically, the quality of life of the residents.

259 Terry Thrash

[Back to signature list](#)

No sewage stations in City of Pensacola.

249 Giffney Nagel

[Back to signature list](#)

This is almost as dumb as originally putting it on prime waterfront property! Move to the miles of rural wasteland in Escambia Co.

245 peter schoor

[Back to signature list](#)

Lois Benson needs to look past her nose

241 Carolyn Lamb

[Back to signature list](#)

This location is 2 blocks away from my home and would degrade what is now a stable and attractive neighborhood.

238 Lori Storey

[Back to signature list](#)

I'm against the Sewage Storage Tanks near North Hill and the surrounding neighborhoods.

237 Ellen McNeal

[Back to signature list](#)

Lives were ruined when it was downtown now moving on to another section where the poor live.

234 Jack McNulty

[Back to signature list](#)

No tanks in North Hill neighborhoods

232 Neeltje McNulty

[Back to signature list](#)

No tanks in North Hill neighborhoods

217 Jeffrey BERNARD

[Back to signature list](#)

THIS TANK/PUMP NEEDS TO BE PUT AT THE EPA SUPERFUND SITE, IT IS IN A COMMERCIAL ZONE.

210 Deborah Shacklett

[Back to signature list](#)

We do not need such an industrial facility in a residential community that is trying to clean up the area to become part of our lovely downtown historic area.

208 Ingrid Candelaria

[Back to signature list](#)

As a retired Navy disabled veteran it took me along time to establish roots. I invested in the North Hill community because it was an established and long-standing area. This new development makes me reconsider if this was a viable decision. I find it hard to believe that this city's leadership would allow the complete disregard ECUA has on the future of the economic growth of this city. I have friends that were considering moving to the North Hill area and now have rescinded the idea of relocating. Like them I foresee many other tax payers establishing homes or businesses in the gateway to Pensacola and the core artery of the downtown community. I pray that some sensible, rational, and ford thinking takes place soon before ECUA commits a diservice to this community as a whole. I ask to reevaluate the impact and consider a more appropriate location that is not in a in close proximity to residential areas or bodies of water. I have faith that ECUA's elected leadership has the capability to produce an alternative that will not have a future odoriferous effect to our city which we are so proud to be a productive part of.

206 Deborah Hart

[Back to signature list](#)

Please locate these tanks in an appropriate industrial area, not among businesses and residential neighborhoods.

200 Wilhelm Hansen

[Back to signature list](#)

There are other methods for providing this emergency protection to the sewage system that should be evaluated and a cost benefit analysis performed before forcing a solution on the community and city that is completely at odds with other neighborhood and infrastructure planning elements.

195 Karl Schlotfeldt

[Back to signature list](#)

Build them up on the property where the new facilities were built! It's also hard to believe a new treatment plant can't handle today me waste was it built outdated before it was even operational? It was moved out of Downtown for a reason so move the (\$hit) mess North!

188 Mike Sheehan

[Back to signature list](#)

This proposed location for the tanks is at the gateway to downtown Pensacola. It's within walking distance to the bay. This high and dry location, that is convenient to downtown and the interstate, deserves better than industrial storage tanks.

187 Clay and Deena Stackhouse

[Back to signature list](#)

Absolute absurdity. Why sewage tank storage is even being considered in one of Florida's largest historic residential and business district is madness. Please send sewage tank to the industrial section-not in our backyards.

180 Alfred Lojo

[Back to signature list](#)

Thank you for protecting our neighborhood, Melanie!

175 Judith Patrick

[Back to signature list](#)

NIMBY!! ECUA has not gone about this in the right way, i.e. giving the public a chance to give some input. No public hearings, no mention of sewage tanks in board meeting minutes, etc. However, after the uproar of the attendees at the Feb. 8 non-meeting ("We didn't expect any discussion." (quote) and no chairs provided, ECUA has scheduled a meeting (on their own turf again--they are just not able to ask their staff to travel downtown to our neighborhood where the tanks would be???) with chairs on Feb. 25 at 2 pm. at Ellyson Field. The hour will preclude many who work from attending. Also there was no geotechnical review done before the property was purchased. And how do we know it won't smell like "old Stinky" did downtown. We don't dispute the need for the tanks for emergency use, but please put them at the "superfund" site even it costs more.

174 Melanie Curtis

[Back to signature list](#)

This project should not be near any neighborhood.especially the downtown corridor.

170 Jennifer Bone

[Back to signature list](#)

We have a lot of family and dear friends that live in that area. It would be an absolute shame to see these tanks get placed here. Especially after all of the hard work that was put in to have them removed in the first place from downtown. Please reevaluate this decision and find another location. This would devastate a historic and beautiful part of our city.

167 Linda Alumbaugh

[Back to signature list](#)

The very idea of placing SEWAGE storage tanks in a neighborhood is unacceptable. ECUA must be stopped before it is too late. We, the residents of Pensacola, are entitled to an explanation. This whole project is preposterous.

165 Sandra Taylor

[Back to signature list](#)

What specific law(s) were utilized by the ECUA in performing their due diligence when selecting this site without "adequate" public notice? purchasing the site without approved site plans in advance?

161 Robert Regan

[Back to signature list](#)

not in my backyard

157 Sara Hubmann

[Back to signature list](#)

NO WAY!

151 Virginia Flock

[Back to signature list](#)

This can not possibly be a wise long term plan. Please learn from past mistakes and consider a more appropriate location.

147 Robert Timby

[Back to signature list](#)

I strongly oppose the placement of these multi-million gallon tanks near our residential neighborhood! My opposition is based on the fact that these tanks would not only be an eyesore but also malodorous and highly detrimental to property values in the vicinity.

146 Danny Bryan

[Back to signature list](#)

We should not have unsightly sewage tanks within our neighborhoods. Should be placed in undeveloped areas or industrial areas.

143 Jo MacDonald

[Back to signature list](#)

Location of these massive sewage tanks at the entrance to Pensacola's downtown and at the edge of a historic neighborhood is totally inappropriate.

138 Kimberly Neill

[Back to signature list](#)

This type of facility does not belong in one of our historic districts or near homes where people live. This needs to be put in an industrial area where no adverse affects can be put upon the nearby residents and the individuals like myself who enjoy visiting the area friends we have made there.

137 Mary Virginia Nugent

[Back to signature list](#)

North Hill is NOT the place for such a storage tank.

127 Thomas Glesser

[Back to signature list](#)

We went through so much during the last 40 years to survive in North Hill with minimal outside help. We need the city to strep up to the plate to preserve a local landmark and anchor to downtown. Just do it

126 Jo anne Glesser

[Back to signature list](#)

We went through so much during the last 40 years to survive in North Hill with minimal outside help. We need the city to strep up to the plate to preserve a local landmark and anchor to downtown. Just do it

122 Harriett Howard

[Back to signature list](#)

Do not want tanks near neighborhood . Risk too great and process was too shady . Fresh memory of old treatment plant odors .
Use superfund site!

114 Kathleen McBride

[Back to signature list](#)

We have spent millions to get the tanks out of the downtown area. Do not bring them back.n

109 Karen Bowdich

[Back to signature list](#)

I am disappointed as a customer, citizen, & homeowner in what ECUA declares a potentially affected area that notice was not given prior to purchasing the land, also occurring without an environmental study. I respectfully request a true and proper reconsideration of this matter, inclusive of residents.

106 David Kelley

[Back to signature list](#)

This should not be at a gateway to downtown, nor in a residential neighborhood. ECUA has plenty of other places to locate this facility.

99 Katya Lane

[Back to signature list](#)

More studies on the environmental impact please.

94 Robert Jeffrey

[Back to signature list](#)

Save our city with better thinking

92 Tami Choate

[Back to signature list](#)

I don't live in North Hill, but my child goes to school there. Many, many children go to school there. I still smell Old Stinky when I drive by. We didn't want Old Stinky downtown, we sure don't want it this close to families and schools.

90 David Bridwell

[Back to signature list](#)

There is a much better option on placement of these tanks right up the road in an area zoned for this.

88 Jenny Brown

[Back to signature list](#)

No one wants this in their rack yard. I think this matter is up for a vote. I vote no. Find someplace where the holing tanks will not interfere with the lives of our citizens. I say make clean fertilizer out of it. Or plastic.

86 Joan Meadows

[Back to signature list](#)

Please use the industrial area instead of a residential /business area that could affect many more people if an accidental leakage did occur.

82 Michael Lane

[Back to signature list](#)

Pensacola has just managed to get rid of a downtown sewage treatment plant, and I've never been to another city with sewage storage prominently displayed on a major road adjacent to a residential area. Surely there are other areas in the metro area better suited for the proposed usage. I strongly oppose this project.

74 Susan Weber

[Back to signature list](#)

The smell alone would negatively impact the local residents quality of life. The downtown area has come too far for a setback like this. I am not in favor of the relocation of the sewage tanks. Horrible plan.

70 Greg Sexton

[Back to signature list](#)

Unbelievable stupidity...

68 Maurice Miller

[Back to signature list](#)

No tank

61 Barbara Cronemeyer

[Back to signature list](#)

Opposed to the proposed site. Others not near residences would be more appropriate

60 Robert Cronemeyer

[Back to signature list](#)

The tanks should NOT be in a residential neighborhood.

59 James Vickrey

[Back to signature list](#)

I VOTE EVERY ELECTION

53 Patricia Wheeler

[Back to signature list](#)

It is ridiculous that we should even have to petition any business or our city administrators about this issue. COMMON SENSE IS NOT SO COMMON!

Putting these tanks anywhere next to historic Pensacola neighborhoods is unconscionable!
PUT THESE TANK IN THE Industrial Zoning District!

Thank you for re-evaluating this issue.

46 Amy Pursell

[Back to signature list](#)

This is just common sense. Let's keep raw sewage out of our downtown & residential areas. It's a no brainer, seriously.

45 Jeff Dearth

[Back to signature list](#)

Raw sewage tanks should not be built in a neighborhood. These tanks are aloud in the zoning of the property.

34 Barbara Whaley

[Back to signature list](#)

Sewage tanks do not belong in neighborhoods! They do not belong on an entrance corridor into Pensacola. This is a horrible plan that needs to be changed.

30 Bill McBride

[Back to signature list](#)

These tanks belong in an area with industrial zoning. Period.

28 Carter Quina

[Back to signature list](#)

We do not need to make another utility location mistake, especially when we have very reasonable options.

26 Tori Rutland

[Back to signature list](#)

Please do not place this sewer system amongst these historic neighborhoods. Much time, energy and money has been invested in maintaining our historic homes. These tanks will most definitely lower our homes' values. It simply doesn't make sense. Those of us that live along North Palafox know its potential. Please do not mar the vision of our future by placing these tanks on this road. Just the thought of living, purchasing or doing business next to sewage tanks (whether temporary storage or not) would never be popular. These tanks will place a scarlet letter on the Northern Corridor of our beloved city.

25 Caroline McGill

[Back to signature list](#)

It make no sense to spend millions of dollars to relocate a sewage treatment plant from downtown only to erect sewage storage tanks in a historic neighborhood downtown.

23 Susanna Tempest

[Back to signature list](#)

We moved the other stink pot out because the tanks smelled bad, why put them back? Put them on the Superfund site. Nobody wants that.

22 Pueschel Schneir

[Back to signature list](#)

I would prefer to revitalize the Palafox corridor with appealing renovations to the historic buildings in compliance with the North Hill Preservation Association's guidelines for improving the neighborhood.

14 Tiffany Voris

[Back to signature list](#)

Not only would a sewage storage tank devalue property in the area, it would completely un-do the work done to revitalize the North Hill, East Hill, and downtown areas.

12 Gregory Rettig

[Back to signature list](#)

Are we really even having this conversation ?

10 Kenny Holt

[Back to signature list](#)

These tanks DO NOT belong on a major gateway to the city! ECUA still has not defined 'emergent use' and there are other locations better suited for storage tanks "just up the road" in a designated industrial area! And if they say they can't afford the piping for that, perhaps they should of sought public input before spending \$647,500 on an inappropriate land site! Renters need to be as concerned as property & business owners - the odors (gases) will HAVE TO be vented when in use! Also of note, this site is immediately adjacent to a major pond in the downtown area- Longhollow Pond! Heaven forbid a catastrophe and sea page into this body of water.....and from what I understand, a planned future city park on the opposite bank! Palafox also has a beautification project in the works - how do two multi MILLION gallon raw sewage storage tanks fit into that plan / project. What will stop ECUA in the future from adding more tanks?

8 Ron Curtis

[Back to signature list](#)

I strongly oppose ECUA's plan to locate multi million gallon sewage tanks near my home in North Hill.

7 Julia Hoeschler

[Back to signature list](#)

Thanks, But NO TANKS!

Please make every effort to take advantage of the SuperFund site.
