

Exhibit 13

June 11, 2018

On Wednesday June 6th, Tess Dorilio came to me and told me that she had something to tell me that she thinks I should know. She began to tell me that Vernon Stewart told her that Beth Barr told him that I had screamed at her in the bathroom and was very aggressive and got in her face. Vernon Stewart also told Tess that Beth Barr told him that I physically bumped her with my shoulder on another occasion. Beth also mentioned to Vernon that she is now afraid to go into the restroom because she is afraid that I will harm her.

I was very upset because this was a complete and total lie and lies such as what was said is slanderous. Both Tess and I informed Mr. Keith Wilkins, Assistant City Administrator, what was said. He initially made light of the situation by saying he was surprised that I would do something like that. He then went on to apologize for making light of the situation and reassured me that he would look into the issue.

On Monday June 11, 2018, I spoke with Keith again about the situation and I asked him if he would be speaking with Vernon to find out if Beth actually told him the lie. It was then that Keith told me that Beth Barr also told him that I had physically bumped her. I was extremely alarmed because at this point she is telling this lie to the Assistant City Administrator. At that point I told Keith Wilkins that I wanted to formally document this event and that I would be filing a complaint with Human Resources.
