Subject: Nursing Homes & Assisted Living Facilities - Directive

Team,

We have just been informed by the DOH that at least 15 nursing homes and assisted living facilities in Escambia county have patients that tested positive for Covid-19.

Starting immediately tonight (April 18, 2020): New Directive - Any calls at a NH or ALF, crews must don full PPE (to include gloves, goggles, mask, gown). This directive is being put into place for the safety of each crew member.

If you have any questions, please contact your shift supervisor. Continue the hard work, stay safe, and look out for each other!

Regards,

Jimmy Maddrey
