## CARES Act Funding – Proposed Programs and Allocations

The Governor’s press release announcing this allocation referenced that, “All counties, including counties that already received direct payment from the U.S. Department of Treasury, should provide funds to municipalities located within their jurisdiction on a reimbursement basis for expenditures eligible under the CARES Act and related guidance.”

As for other uses of these funds, we are encouraged to adopt a strategy to maximize federal funds by submitting FEMA Public Assistance (PA) eligible items to FEMA for funding, and use CARES Act money as cost share for that program. There is no requirement to do this, but it is a suggested strategy to maximize these funding sources.

The CARES Act Fund will be utilized to cover COVID-19 mitigation and response-related costs. Funding will provide financial recovery assistance through the programs listed below. The programs may be amended from time to time based on unexpected needs and availability of funds. Eligibility is based on a pre-certification process.

Each community program will outline eligibility requirements, submission of a complete program application, and necessary supporting documentation. Program applications will be designed to ensure eligibility, accountability and compliance.
