Hello again!

I had a chance to connect with Jordan Conti as well today... she tells me that the Keystone HOA meeting is that same week, on Jan 5th. It will be virtual and I think it would be good if we had a few of us on that video call to speak to the OLF-8 topic.

- 1) Is that okay with all of you? and
- 2) Who all would like to participate in that call?

If you hear of any other home owner association meetings in Beulah in January, please let us know!

Bill

That's great, Bill. I was just discussing this with someone who wants to start an action group in NT. When she asked if we should get on the agenda, I said YES!

So we discussed a few things like having a handout or two, the importance of making it visual for them, the likeliness that a big commerce park will drag down property values and more. She has another lifelong friend who is very interested, passionate really, and who could add to the effort.

She is a licensed real estate broker in Fla., Ala. and Mississippi - once worked with the developer of Milestone, a proponent of mixed use. So I said we need to get him to help us, to speak at meetings. He is exactly what we need, local developers who know better.

I said that we should get together a list of all of us who are communicating with phone numbers and email addresses. We need to all get up to speed with ZOOM (including me at a higher level).

Thank you,
Theresa

Hello Coalition friends!

The Beulah Coalition has been added to the agenda for the January 7th meeting of the Nature Trail Home Owners Association. My colleague Bill Dagnall has confirmed with Mike Logan of the HOA that we will be on the agenda with a 10 minute window to update the neighborhood on where things stand.

Because of coronavirus, the meeting will be held outdoors. We will have the option of presenting a PowerPoint deck if we like.

I wanted to see if John Porter or John Kellas would be interested in kicking off our update, since you both live in Nature Trail (correct?).

Very exciting in my opinion. Thank you all for your help... please let me know what you think.
