Sending out a google sheet for the Beulah coalition meeting. We all need to be on that one too.

You are welcome to join the school meeting. It is their school board wanting a site on OLF8.

Unfortunately, that doesn't work for me as I'm booked from 3-530. I could do 530, or Thursday 11/19 is pretty open. What is the school meeting and is that anything I need to attend, or might want to attend?

That works for me. I will have to leave promptly at 5p to pick up Lyla from running club. I have to drop her off at 3.45p so that means I'll likely join OLF8 school meeting for 30 mins via zoom and then via phone if it goes longer.

Unfortunately, I am not at that time. I forgot that I'll be on the road to north Milton at that time. We're adopting a new puppy and are scheduled to pick it up then. I can do late that afternoon, or in the morning.

Sorry... I didn't have it on my work calendar and it slipped my mind.

Yes I notified them. Let me get a few times for next week.

And yes, we've already been discussing this article. I was shocked that there were no respondents given the market - even for housing - in that area.

Good morning!

I wanted to flag a story from today's Pensacola News Journal. After relaxing the requirements for developers to meet , FloridaWest still received no proposals.

If our community is struggling to fill a two acre lot in the bustling downtown, what kind of market will there be for hundreds of acres in Beulah that, like the tech park, is designed to attract high wage jobs?

Travis.. have you been able to connect with the rest of the DPZ folks to discuss a virtual meeting with the Beulah Coalition in the next week or so?
