Rick. This is as result of a few employees ?
We are financially sound and their
allegations are patently false , there has been
zero misappropriations, we think it goes
back to a rogue interim director who has
limited knowledge, can you take this down.
We have engaged Emmanuel Shepard to find
out who is the anonymous writer. We will be
transparent and give you a real interview
when we figure what this is about. I have the
bad guy as the director resigned for personal
reasons , not humane related.
