I work for the Pensacola humane society. And the fact that channel 3 and no other entities in this media in this area wants to hear our side of the story is b*****. I have at least raised over \$1,000 in the last 6 months in my own donations and have received multiple grants that were earmarked specifically for my TNR program, and I could not even get \$30 for the cups that were what I needed to make sure my cats had food and water and their cages while they were waiting for surgeries. The fact that this board has the nerve to tell me that they have not inappropriately spent money is b*****. This board is not giving us any explanation about where those funds have gone.
