Please read this post from my coworker! It is so important! This news article is a bunch of bs. Our poor organization is suffering and that ultimately means our animals are suffering. Our side of the story deserves to be heard. Gerald Adcox is full of it and he needs to be removed from our Board of Directors. "No one spoke up". We ALL spoke up about the issues at hand, some of which are that we are in financial crisis with not having the money we need to pay our bills at the shelter and vaccinate and vet our animals while the board refuses to tell us where those funds have gone.
