MANAGED CARE PLAN RATES – NOT FOR USE UNLESS APPROVED BY CMS

Actuarial Notes: RISK CORRIDOR FOR BEHAVIOR ANALYSIS SERVICES

Prior to Rate Year (RY) 24/25, the Agency paid for Behavior Analysis (BA) services on a fee-for-service (FFS) basis outside of the MMA program.

Effective February 1, 2025, these services were transitioned to coverage by MMA plans for any member enrolled in MMA, including the Children's Medical Services (CMS Plan), and thus, were included in the MMA capitation rates. Members not enrolled in a managed care plan will continue to have their services paid by the Agency on an FFS basis.

As part of the transition of coverage to managed care plans, the projected BA costs are subject to potentially significant variations due to the following:

Reduction of costs due to managed care savings achieved by plans

Reduction in costs due to plans identifying unnecessary services or services that are not allowed under the Medicaid program

Changes in actual utilization or costs per service from those assumed in the rate development process

Changes in services authorized by managed care plans

Changes in contracting levels between plans and providers from those assumed in the rate development process

The impact of the acuity differences between our base period and RY 25/26

Legislative changes or other changes that impact the unit cost of these services

Other unanticipated changes due to the shift from services covered through FFS to covered by MMA plans

Given these variables, the Agency will implement a BA service specific one-sided risk corridor. This structure will incentivize plans to manage care more effectively and allow the Agency to share in a portion of the savings achieved.

The risk corridor will be structured as a tiered shared savings risk corridor structure, using parameters consistent with those used in the Agency's Achieved Savings Rebate (ASR) calculation. The shared savings percentages will depend on the differential between the projected BA utilization and costs included in the capitation rates and the actual BA utilization and costs incurred by each plan during the RY 25/26

period. Specifically, to align with the ASR calculation parameters, the risk corridor will have the following tiers similar to the ASR calculation parameters (e.g., percentage reflects actual BA services were lower than projected BA services):

0 to 5%, plan returns 0% of actual to projected differential

5 to 10%, plan returns 50% of actual to projected differential

10+%, plan returns 100% of actual to projected differential

This approach strikes the balance between the amount of savings returned to the Agency and incentivizing MMA plans to achieve savings for these services.

The projected RY 25/26 BA PMPM costs included in this report will be used as the projected cost levels within the risk corridor calculation.

To calculate any applicable risk corridor payments for plans, the following steps will be performed:

Establish a target cost for total BA services for each plan for RY 25/26. The target costs will utilize the following components:

Plan Membership: Actual plan membership by region, rate group, and rate cell, split by each quarter during RY 25/26.

Projected BA costs PMPM: Projected RY 25/26 BA costs at a region, rate group, and rate cell, split by each quarter during RY 25/26, will be based on the outcome of the RY 25/26 BA-specific risk adjustment process. This risk-adjustment process will adjust BA projected costs on a quarterly basis between rate groups and rate cells within a region, based on actual enrollment of BA utilizers and their corresponding BA utilization in SFY 24/25. This process is shown in Exhibit 35A and outlined in more detail in the RY 25/26 risk adjustment methodology report.

Plan-specific BA-service specific risk scores: For each quarter during RY 25/26, we will adjust the plan-specific risk corridor target based on the actual enrollment of BA utilizers and their corresponding BA utilization in SFY 24/25, relative to all other plans. This BA service specific risk score will be based on the relative BA risk of each plan's population as shown in Exhibit 35B.

The target will be calculated as the aggregated risk adjusted projected RY 25/26 BA costs for the entirety of the plans enrollment, aggregated across each quarter of RY 25/26, as shown in Exhibit 35C.

Aggregate total BA costs across all populations during RY 25/26 as reported in the plan's ASR.

Calculate the variance from target costs by comparing the target costs in Step 1 to the actual costs in Step 2.

Apply the risk tiers and shared savings percentages of the risk corridor to the risk adjusted variance from target costs calculated in Step 3.

Once RY 25/26 is complete with sufficient claims runout, the Agency will evaluate the actual total RY 25/26 BA costs relative to the projected BA costs included in the RY 25/26 MMA capitation rates by plan. Agency recoupments from MMA plans, if applicable, will be evaluated and assessed at this time. Under this one-sided risk corridor, the result of the risk corridor will only result in the Agency receiving recoupments from the managed care plans. From the Milliman Capitation Rates documents, Exhibit 35A through 35C illustrates the calculation of the projected RY 25/26 BA costs, and Exhibit 35D contains formulas showing the tiers and risk corridor payment calculations.

The Agency's ASR calculation will apply after the BA risk corridor, such that the ASR calculation is net of any recoupments associated with the BA risk corridor. In other words, any amounts returned to the Agency as part of the calculation of the BA risk corridor will be considered as part of the ASR calculation.

VALUE-BASED PURCHASING PERFORMANCE TARGETS

The Managed Care Plan shall expend a minimum percentage of payments to providers through VBP agreements in accordance with **Table 4**, Incremental Increase in Expenditures in Value-Based Purchasing Agreements with Providers. The percentage of payments in various LAN risk levels are calculated by dividing the measured claim-based expenditures in VBP agreements by the total claim-based expenditures for all enrollees as reported in the Achieved Savings Rebate (ASR). If capitation is paid to providers in lieu of fee-for-service claim reimbursement, then the capitation payment amounts shall be included in the numerator and the denominator. If the Managed Care Plan falls below these minimum percentages, the Agency shall assess liquidated damages pursuant to **Section XIII.**, Liquidated Damages, as determined by the Agency.

F. Prioritizing Self-Sufficiency

1. Hope Florida

Hope Florida is an initiative launched in 2021, administered by multiple state agencies, that aims to help Floridians overcome barriers to economic self-sufficiency. Hope Navigators, employed at various state agencies, assist Floridians seeking help using a holistic approach, through community-based organizations (faith-institutions, non-profits, and private sector partners). The Managed Care Plan shall develop and maintain procedures for accepting referrals from a Hope Navigator assisting an enrollee who needs services offered by their Managed Care Plan. The Managed Care Plan shall collaborate with Hope Navigators to assist their enrollee in addressing challenges related to economic self-sufficiency (unemployment, underemployment, vocational training, food insecurity, housing instability, etc.) based upon the expanded benefits offered by the Managed Care Plan.

- a. The Managed Care Plan shall also establish relationships with CBOs who can assist with long-term resolution of transportation or child-care challenges that prevent an individual from fully participating in employment opportunities.
- b. When receiving referrals from Hope Navigators, the Managed Care Plan shall document the status of and fulfillment of the enrollee's needs in the Hope Florida closed-loop referral system. The Managed Care Plan shall utilize the Hope Florida closed-loop referral system as an in-network partner available to receive referrals. The Agency shall ensure Managed Care Plans receive training on use of the closed-loop referral system.
- c. The Agency shall provide the Department of Children and Families with expanded benefits and other resources offered by each Managed Care Plan for inclusion in the Hope Florida closed-loop referral system for use by Hope Navigators in making appropriate referrals to the Managed Care Plan for their enrollees.
- d. The Managed Care Plan shall contact all enrollees referred from a Hope Navigator within one (1) business day, acknowledging receipt of the referral to begin addressing the unmet need, and maintain contact with enrollees at minimum, every thirty (30) days, until the barriers are resolved. The Managed Care Plan shall maintain ongoing contact with the enrollee's case manager to maximize outcomes and resolution of needs.
- e. In accordance with **Section XV.**, Accountability, and the Managed Care Plan Report Guide, the Managed Care Plan shall report annually to the Agency:
 - (1) A list of enrollees requesting help with health-related social needs either directly through the Managed Care Plan or those referred by a Hope Navigator through Hope Florida;
 - (2) The primary issue for which the enrollee needed assistance;

- (3) The expanded benefit(s) provided; and
 - (4) The outcome of the engagement (e.g., primary issue resolved, enrollee did not follow through on service referrals, etc.)
- f. If the Managed Care Plan fails to comply with the requirements of this Section, the Managed Care Plan may be subject to sanctions pursuant to **Section XII.**, Sanctions and Corrective Action Plans, or liquidated damages pursuant to **Section XIII.**, Liquidated Damages, as determined by the Agency.

2. Self-Sufficiency Achievement Requirements

To the extent the Managed Care Plan is successful in assisting an enrollee in achieving economic self-sufficiency that results in them graduating from enrollment on the Medicaid program, (i.e., no longer requiring the need for Medicaid coverage due to improved financial status), it is the Agency's intention that the Managed Care Plan may receive additional enrollee assignments at a factor and for a duration to be determined by the Agency.

- a. The following Medicaid eligibility categories are eligible for reporting and calculation of enrollee self-sufficiency achievement rates (**Table 2**). Enrollees must be at least eighteen 18 years of age or older.

TABLE 2 POPULATIONS INCLUDED IN PLAN ENROLLEE SELF-SUFFICIENCY ELIGIBLE POPULATION		
Population Description		Eligibility Category
1.	Low-Income Parents	MA R - Parents and Caretakers
2.	19 - 20-year-old Children	MO Y - Low Income Children
3.	TANF Children ages 16 - 21	MM C - Medicaid for children born after September 30, 1983
4.	Foster Care Children	MCFE, MCFN - Medicaid for children in foster care (ages 16 - 18) MA I - Medicaid for former foster care youths (ages 19 -26)

The initial reporting period will begin in Contract Year 2.
- (1) Identification of the assessment utilized to determine barriers.
 - (2) A description of barriers to self-sufficiency identified through the assessment, or self-reported through other means by the enrollees. If self-reported outside of the assessment process, additional supporting documentation of the method of reporting and subsequent documentation of the barrier must be provided.

Section I. General Overview

- d. If the Managed Care Plan fails to comply with the requirements of this Section, the Managed Care Plan may be subject to sanctions pursuant to **Section XII.**, Sanctions and Corrective Action Plans, or liquidated damages pursuant to **Section XIII.**, Liquidated Damages, as determined by the Agency.
- e. The Agency shall consider an enrollee to have achieved self-sufficiency from Medicaid upon receipt of the information included in this Section of the Contract, and the Agency verifies that the enrollee's eligibility for the Florida Medicaid program ended and was not reinstated for a six (6) month period following their inclusion in the Managed Care Plans quarterly Self-Sufficiency report. The Agency will review information included in the report to validate unambiguous alignment between identified barriers and the support and services reported as provided by the Managed Care Plan, to verify that the enrollees reported did not re-enroll in Medicaid within six (6) months after achieving self-sufficiency, and that the enrollees eligibility was not ended due to death, incarceration or for having left the State of Florida.
- f. If an enrollee in categories 1 through 5 of **Table 2**, for whom the elements listed above have been validated, loses full Medicaid benefits and is moved into one of the following, the Agency considers them as having achieved self-sufficiency from Medicaid:
 - (1) Family Planning Waiver Program
 - (2) Children's Health Insurance Program
 - (3) Medically Needy Program, for individuals who are eligible but do not utilize Medicaid services. This includes individuals with a span of "enrolled"; this does not include individuals with a span of "open".

3. Self-Sufficiency Incentive

- a. Incentives will be based on the number of enrollees graduated from Medicaid during each quarter, such that there will be a reward for plans that exceed their Plan Target Goal, defined as 0.0625% of the Plan's Graduation-Eligible Population described above.
- b. The Managed Care Plan unable to achieve its Plan Target Goal may be required to submit a Corrective Action Plan detailing barriers, opportunities, and operational plans to increase their rate of enrollees who achieve self-sufficiency. The Agency reserves the right to change the percentage thresholds, goals, and reward amounts at any time.
- c. For each Managed Care Plan graduating enrollees at or above their Plan Target Goal, additional plan enrollees will be assigned to the Managed Care Plan in the quarter following the incentive calculation in a 1/ 1.5 ratio. For example: If the Managed Care Plan graduates 100 enrollees for the quarter, it will be assigned an additional 50 enrollees for the following quarter.

Section I. General Overview

G. Prioritizing Mental Wellness for Florida's Youth

The Agency is prioritizing mental health services to help enrollees function and live independently in the community. By ensuring that enrollees contending with serious mental illness or substance abuse issues receive access to the right care at the right time, the Managed Care Plan can promote the best outcomes and reduce the numbers of emergency department and inpatient admissions.

1. Care Coordination for Children with High Utilization of Crisis Stabilization Unit (CSU) and Inpatient Psychiatric Hospital Services
 - a. The Managed Care Plan shall assign a care coordinator to an enrollee under eighteen (18) years of age who are high utilizers of inpatient psychiatric hospitals, Baker Act receiving facilities, and/or CSUs (i.e., three (3) or more admissions within a six (6)- month period). The Managed Care Plan's care coordinator shall assume a lead role in identifying services that can meet the enrollee's need even when there are multiple state agencies (e.g., DCF and Agency for Persons with Disabilities (APD)) involved in the child's care. The Managed Care Plan shall coordinate and maintain routine contact with other state agencies involved in the enrollee's care, including DCF regional Children's Care Coordinators and the local managing entities, to ensure access to Medicaid services and other related community resources. Such communication shall occur at the frequency warranted for the needs of the enrollee. The Managed Care Plan shall document coordination and communication efforts in the enrollee records.
 - b. The Managed Care Plan shall ensure that assigned care coordinators serving enrollees under the age of eighteen (18) years of age who are high utilizers of CSU and inpatient psychiatric hospital services receive training through DCF. Annual training topics shall include the following training at a minimum:
 - (1) The Marchman Act (Chapter 397, F.S.)
 - (2) The Baker Act (Part I of Chapter 394, F.S.)
 - (3) Mental Health First Aid training.
 - c. The Managed Care Plan shall submit a completed training attestation, signed by the care coordinator/case manager's supervisor, to the Agency annually on June 1.
 - d. In addition to the provisions in **Attachment II, Exhibit II-A, Section V., Service Administration, Sub-Section D., Coverage Provisions, Item 3., Enrollee Screening and Education**, the Managed Care Plan shall conduct quarterly education and outreach to promote resources on mental health services for children and adolescents.
 - e. The Managed Care Plan shall communicate and coordinate at least quarterly with DCF regional Children's Care Coordinators and the managing entities for enrollees under eighteen (18) years of age who are who are high utilizers of CSU and inpatient psychiatric hospital services to ensure access to Medicaid

services and other related community resources. The Managed Care Plan shall document coordination and communication efforts in the enrollee records.

- f. The Managed Care Plan shall report monthly on case management activities on enrollees under eighteen (18) years of age who have high utilization of CSU inpatient mental health services, in accordance with **Section XV.**, Accountability, and the Managed Care Plan Report Guide.

2. High Utilizer Medical Record and Case Management File Review

- a. The Managed Care Plan shall perform medical record and case management file reviews for enrollees who are high utilizers of CSU and inpatient psychiatric hospital services, Baker Act receiving facilities, and/or CSUs within a six (6)-month period. The Managed Care Plan must initiate the review within ninety (90) days of the third readmission and focus on inpatient evaluations, discharge planning, and identifying trends associated with:
 - (1) Communication between the inpatient facility, health plan, caregiver, and other providers.
 - (2) Seven (7) day follow up.
 - (3) Services scheduled.
 - (4) Completion of follow-up of services.
- b. At a minimum, the review shall encompass three (3) enrollee records of the three (3) inpatient psychiatric hospitals, Baker Act receiving facilities, or CSUs with the highest readmission rates.
- c. The results of the medical record and case management file reviews shall be utilized by the Managed Care Plan as part of its quality improvement activities and shall be made available to the Agency upon request.
- d. If the Managed Care Plan fails to perform the medical record and case management file review for enrollees who are high utilizers of CSU and inpatient psychiatric hospital services, the Managed Care Plan shall be subject to fines or otherwise sanctioned in accordance with **Section XII.**, Sanctions and Corrective Action Plans.

3. Evidence-Based Practices for Children with Intense Behaviors

- a. Under the authority of 42 U.S.C. 1396d(r)(5), the Managed Care Plan shall partner with DCF to offer the following evidence-based programs for children with intense behaviors, when medically necessary:

H. Prioritizing Quality and Value

The SMMC Quality Strategy details an array of quality components with balanced incentives and penalties to drive continual improvement in overall program quality. All quality components align to the three (3) core quality goals: promote healthy birth outcomes for mothers and infants, maximize home and community based (HCB) placement and services to improve independence, well-being and safety, and improve childhood and adolescent mental health. The quality structure aligns penalties and bonuses such that with each incremental improvement in performance, the Managed Care Plan will continue to have an incentive to continue to invest in improvement.

1. Layered Approach to Drive Continued Improvement

The Agency has supplemented its Comprehensive Quality Strategy to include an array of quality components with balanced incentives and penalties to drive continual improvement in overall program quality. By tying performance incentives and penalties to the Agency's goals, the Agency will drive plan performance to the height of quality and best value.

a. Achieved Savings Rebate One Percent Quality Incentive

The Managed Care Plan operating at top tier performance levels may retain an additional one percent (1%) of revenue through the Achieved Savings Rebate.

- (1) Each year, to be eligible to retain up to an additional one percent (1%) of revenue, the Managed Care Plan must earn four (4) points or more for each reportable performance measure listed in the Quality Withhold Incentive as described in this Sub-Section. For example, a Managed Care Plan reporting all eight (8) measures to the Agency and earning four (4) points for each measure would score thirty-two (32) Total Quality Points out of a maximum number of forty (40) points possible and consequently shall be eligible to retain an additional one percent (1%)

of revenue.

- (2) The Agency reserves the right during the Contract term to change the Achieved Savings Rebate One Percent Quality Incentive methodology.

b. Quality Preferred Assignment Incentive

The Managed Care Plan with penultimate performance may receive preferred assignment incentives. In accordance with Section 409.977(1), F.S., the Agency may adjust enrollment through enhanced auto-assignments to high-performing plans as a performance incentive.

- (1) In addition to the incentive payments available through the Quality Withhold Incentive as described in the item below, the Managed Care Plan may be eligible for the Quality Preferred Assignment Incentive.
- (2) Each year, to earn the Quality Preferred Assignment Incentive, the Managed Care Plan must have earned its full two percent (2%) withhold and be one of the three highest scoring plans, based on the percentage of Total Quality Points earned to maximum number of points possible, as described below, and have scored at least one (1) point for each reportable performance measure. If the Managed Care Plan earns the Quality Preferred Assignment incentive, the plan shall receive enrollee assignments at a factor of 1.5 for a six (6)-month period.
- (3) The Agency reserves the right during the Contract term to change the Quality Preferred Assignment Incentive methodology.

c. Quality Withhold Incentive

The Quality Withhold Incentive creates a financial withhold from the capitation rates paid to the Managed Care Plan to use as an incentive payment to plans with high performance on certain quality measures. The Managed Care Plan may receive a payment higher or lower than their contribution based on performance.

- (1) Each year, the Agency shall withhold two percent (2%) of the Managed Care Plan's capitation rate with the withhold to be earned based on the Managed Care Plan's performance according to specific performance measures compared against national performance standards.
- (2) The following Healthcare Effectiveness Data and Information Set (HEDIS) performance measures shall be used in the Quality Withhold Incentive, divided into two groups:
 - (a) Group A:
 - (i) Controlling Blood Pressure (CBP)
 - (ii) Glycemic Status Assessment for Patients with Diabetes – Glycemic Status < 8.0%

- (4) Earned points for the ten (10) measures will be added together to determine the Total Quality Points for the Managed Care Plan. The maximum number of Total Quality Points the Managed Care Plan may earn is five (5) multiplied by the total number of performance measures that the Managed Care Plan is obligated to report to the Agency. For example, if the Managed Care Plan has reportable rates for all ten (10) measures, then the plan's maximum number of Total Quality Points is fifty (50). If the plan has reportable rates for eight (8) measures, then the plan's maximum number of Total Quality Points is forty (40).
- (5) If the Managed Care Plan's Total Quality Points equals or exceeds an average of two (2) points per reportable performance measure, then the Managed Care Plan shall earn its full two percent (2%) withhold. For example, if the Managed Care Plan reports ten (10) measures to the Agency and earns twenty (20) Total Quality Points, then the Managed Care Plan shall earn its two percent (2%) withhold. If the Managed Care Plan reports eight (8) measures to the Agency and earns sixteen (16) Total Quality Points, then the Managed Care Plan shall earn its two percent (2%) withhold. If the Managed Care Plan's Total Quality Points are below an average of two (2) points per reportable performance measure, then the Managed Care Plan shall not receive its full withhold but may receive a portion of the withhold based on the percentage of Total Quality Points earned to maximum number of points possible.
- (6) Withhold not earned back by the Managed Care Plan shall be directed to a Quality Bonus Pool.
 - (a) Each year, if there is a Quality Bonus Pool created by the Managed Care Plans that has not earned its full withholds, then the Managed Care Plan that did earn its full 2% withhold may be eligible to earn an additional incentive payment from the Quality Bonus Pool based on the percentage of Total Quality Points earned to maximum number of points possible.
 - (b) If every Managed Care Plan receives its full 2% withhold, then there will not be a Quality Bonus Pool available for distribution that year.
- (7) The Agency reserves the right during the Contract term to change the Quality Withhold Incentive.
- (8) The Managed Care Plan may use designations and rankings related to high performance on performance measures given by and as approved by the Agency.

With 2% of total revenue withheld for quality performance incentive, Plan 1 had **\$15,000,000** withheld, Plan 2 had **\$30,000,000** withheld, and Plan 3 had **\$29,000,000** withheld.

According to quality performance results, Plan 1 earned 29 of a maximum of 50 Quality Points, Plan 2 earned 21 of 50 Quality Points, and Plan 3 earned 17 of 50 Quality Points.

In the SMMC contract, 20 Quality Points or greater is required to earn back the entire 2% withhold amount. Since Plan 1 and Plan 2 earned more than 20 Quality Points, they earned back their entire withhold amounts. Plan 1 earned back **\$15,000,000**. Plan 2 earned back **\$30,000,000**.

Since Plan 3 earned less than 20 Quality Points, they earned back a percentage of their withhold amount. The amount earned back by Plan 3 (**\$24,650,000**) was calculated by dividing their earned Quality Points (17) by the minimum threshold of Quality Points (20) and then multiplying that fraction (0.85) times their original quality withhold amount (**\$29,000,000**).

Step 2 – Funds Available for Quality Bonus Pool

With Plans 1 and 2 earning back their entire 2% quality withhold amounts, they contributed no amount of money to the Quality Bonus Pool. However, since Plan 3 did not earn their entire withhold amount because of lower quality performance, their leftover amount of **\$4,350,000** was entered into a Quality Bonus Pool.

Step 3 – Distribution of Quality Bonus Pool

ATTACHMENT II
SCOPE OF SERVICES - CORE PROVISIONS
UPDATE: OCTOBER 1, 2025

Section I. General Overview

Since Plans 1 and 2 earned more than 20 Quality Points because of higher quality performance, they were eligible to receive distributions from the Quality Bonus Pool.

Based on quality performance, as calculated by earned Quality Points divided by maximum Quality Points possible, Plan 1 received more of the Quality Bonus Pool distribution compared to Plan 2.

Specifically, the maximum percentage that Plan 1 was eligible to receive from the Quality Bonus Pool was 0.60% of their total revenue based on their performance of 29 Quality Points. If Plan 1 had earned 50 points of a maximum 50 points, then Plan 1 would have been eligible for a maximum of 2% of total revenue from the Quality Bonus Pool. However, with 29 of 50 points earned, the maximum amount eligible for Plan 1 was **\$4,500,000**, assuming there was enough in the Quality Bonus Pool for all qualifying plans.

Plan 2 was eligible to receive a maximum of 0.067% of their total revenue based on their performance of 21 Quality Points. The maximum amount eligible for Plan 2 was **\$1,000,000**, assuming there was enough in the Quality Bonus Pool for all qualifying plans.

Together, the maximum eligible amount for Plans 1 and 2 from the Quality Bonus Pool was **\$5,500,000**. However, since only **\$4,350,000** was entered into the Quality Bonus Pool, then only 79.09% (calculated by **\$4,350,000** divided by **\$5,500,000** times 100%) of the maximum was available for distribution to the qualifying plans, Plan 1 and Plan 2. In specific, **\$3,559,091** was distributed from the Quality Bonus Pool to Plan 1 and **\$790,909** to Plan 2.

In total, because of Plan 1's higher performance, they earned 2.47% from the 2% quality withhold arrangement. Because of Plan 2's average performance, they earned 2.05% from the 2% quality withhold arrangement. And because of Plan 3's poor quality performance, they earned 1.70% from the 2% quality withhold arrangement.

d. **Financial Consequences and Liquidated Damages**

- (1) The Managed Care Plan agrees that failure to comply with any provisions of this Contract and 42 CFR 438.100 may result in the assessment of sanctions; temporary enrollment limitations, such as temporary enrollment freezes, enrollment algorithm reductions, and/or enrollment caps; and/or termination of this Contract, in whole or in part.
- (2) If the Managed Care Plan's performance is not consistent with the Agency's expected minimum standards, as specified in this Sub-Section, the Agency may sanction the Managed Care Plan for failure to achieve minimum scores on HEDIS performance measures after the first year of poor performance. The Agency may impose monetary sanctions, as described in **Attachment II Exhibit II-A, Section XII.**, Sanctions and Corrective Action Plans, **Sub-Section C.**, Performance Measure Sanctions, and temporary enrollment limitations, such as temporary enrollment freezes, enrollment algorithm reductions, and/or enrollment caps, in accordance with **Section XII.**, Sanctions and Corrective Action Plans, **Sub-Section A.**, Contract Violations and Non-Compliance, for poor performance, as specified in this Contract and its Exhibits.

- d. The Managed Care Plan shall use the Learning Action Network (LAN)'s alternative payment framework to categorize its VBP agreements with providers. Agreements in categories LAN 3N or 4N are not considered value-based purchasing agreements and are not measured by the Agency. The Agency reserves the right during this Contract term to change the definitions of risk categories.

- e. Provider Participation in VBP Agreements with the Managed Care Plan
 - (1) All providers in a Managed Care Plan's provider network, including subcontracted provider networks, shall be eligible for VBP agreements.

providers' own historical costs to assess adequacy of the target budget. When calculating target budgets, the Managed Care Plan is also encouraged to use the enrollees' area deprivation index or other social vulnerability index rankings to adjust provider risk.

- (c) A detailed methodology of regularly sharing data, at a minimum quarterly, with providers that enables proactive care management to achieve performance targets. Shared data shall be in the forms of clinical (e.g., health care utilization, health outcomes, quality performance), financial (e.g., actual expenditures, bonus payments, withholds, shared savings, shared losses), provider's progress relative to achieving agreement targets (e.g., performance and budget), and others pertinent to the VBP agreement. The Managed Care Plan shall offer technical assistance to VBP-participating providers for visualizing and interpreting data.
- (d) A list of quality measures used for calculating shared savings or losses, including at least one (1) Tier 1 quality performance measure listed in Section VIII., Quality. The VBP agreement shall be clear on the performance period start and end dates. - (2) The VBP agreement shall be clear on the payment and reconciliation terms with providers, including remittance timeframes (for example, monthly, quarterly, or annually) and the process for appealing the payments.
- (3) The VBP agreement shall require providers to participate in the Florida Health Information Exchange (HIE) Encounter Notification Service (ENS). The Managed Care Plan shall achieve and maintain ENS participation in one hundred percent (100%) of VBP arrangements.
- (4) The Agency has the right to review any VBP agreement for compliance with minimum requirements.
- (5) The Managed Care Plan shall expend a minimum percentage of payments to providers through VBP agreements in accordance with the Incremental Increase in Expenditures in Value-Based Purchasing Agreements with Providers Table, **Table 6**, below. The percentage of payments in various LAN risk levels are calculated by dividing the measured claim-based expenditures in VBP agreements by the total claim-based expenditures for all enrollees as reported in the Achieved Savings Rebate (ASR). If capitation is paid to providers in lieu of fee-for-service claim reimbursement, then the capitation payment amounts shall be included in the numerator and the denominator. If the Managed Care Plan falls below these minimum percentages, the Agency shall assess liquidated damages pursuant to **Section XIII.**, Liquidated Damages, as determined by the Agency.

- k. If the Managed Care Plan fails to adhere to the notice and timing requirements for resolution of the plan appeal, the Managed Care Plan shall give notice on the date that the timeframes expire. In such cases, the enrollee is deemed to have completed the Managed Care Plan's appeals process, and the enrollee may initiate a Medicaid fair hearing (42 CFR 438.408; 42 CFR 402(c)(1)(i)(A)).

- 3. The Managed Care Plan shall inform the enrollee of the limited time available to present evidence and allegations of fact or law, in the case of expedited plan appeal resolution, and ensure that the enrollee understands any time limits that may apply.

Section X. Method of Plan Payment

Section X. Method of Plan Payment

A. General Provisions

1. The Agency shall deny payments to the Managed Care Plan for new enrollees when payment for those enrollees is denied by CMS based on the Agency's recommendation in accordance with 42 CFR 438.726(b) and 42 CFR 438.730(e).
2. In accordance with Section 409.967(3), F.S., the Agency shall be responsible for verifying the Managed Care Plan's ASR as specified in Section X., Method of Plan Payment in this Contract. The Agency shall contract with independent certified public accountants (CPAs) to conduct compliance audits for the purpose of auditing Managed Care Plan financial information in order to determine and validate the Managed Care Plan's ASR.

B. Fixed Price Unit Contract

This is a fixed price (unit cost) Contract awarded through procurement. The Agency, through its fiscal agent, shall make payment to the Managed Care Plan on a monthly basis for the Managed Care Plan's satisfactory performance of its duties and responsibilities as set forth in this Contract.

C. Payment Provisions

1. Capitation Rates

- a. The Managed Care Plan shall be paid the applicable capitation rate for each Medicaid- eligible enrollee whose name appears on the HIPAA-compliant X12 820 file for each month. The total payment amount to the Managed Care Plan shall depend upon the number of enrollees in each eligibility category and each rate group, as provided for by this Contract, or as adjusted pursuant to this Contract when necessary. The Managed Care Plan is obligated to provide services pursuant to the terms of this Contract for all enrollees for whom the Managed Care Plan has received capitation payment or for whom the Agency has ensured the Managed Care Plan that capitation payment is forthcoming (42 CFR 438.3(c)(2)).
- b. In accordance with Section 409.968, 409.976 and 409.983, F.S., the capitation rates reflect historical utilization and spending for covered services projected forward and shall be risk adjusted for enrollees in each Managed Care Plan. During the Contract term, the Agency may change the Risk Adjustment Model to reflect the risk of the Managed Care Plan's membership mix.
- c. Utilization and expenditures for services by providers outside the U.S. shall not be included in the development of capitation rates.
- d. The rates shall be actuarially sound in accordance with 42 CFR 438.6(c).
- e. The base capitation rates prior to risk adjustment shall be included in this Contract.
- f. The Agency may use, or may amend and use these rates, only after certification by its actuary and approval by CMS. Inclusion of these rates is not intended to convey or imply any rights, duties or obligations of either party, nor is it intended

**ATTACHMENT II
SCOPE OF SERVICES - CORE PROVISIONS

Section X. Method of Plan Payment

to restrict, restrain or control the rights of either party that may have existed independently of this Section of this Contract.

- g. By signature on this Contract, the parties explicitly agree that this Section shall not independently convey any inherent rights, responsibilities, or obligations of either party, relative to these rates, and shall not itself be the basis for any cause of administrative, legal or equitable action brought by either party. In the event that the rates certified by the actuary and approved by CMS are different from the rates included in this Contract, the Managed Care Plan agrees to accept a reconciliation performed by the Agency to bring payments to the Managed Care Plan in line with the approved rates. The Agency may amend and use the CMS-approved rates by notice to the Managed Care Plan through an amendment to this Contract.
- h. Unless otherwise specified in this Contract, the Managed Care Plan shall accept the capitation payment received each month as payment in full by the Agency for all services provided to enrollees covered under this Contract and the administrative costs incurred by the Managed Care Plan in providing or arranging for such services. Any and all costs incurred by the Managed Care Plan in excess of the capitation payment shall be borne in total by the Managed Care Plan.
- i. Should any part of the scope of work under this contract relate to a state program that is no longer authorized by law (e.g., which has been vacated by a court of law, or for which CMS has withdrawn federal authority, or which is the subject of a legislative repeal), the Managed Care Plan must do no work on that part after the effective date of the loss of program authority. The state must adjust capitation rates to remove costs that are specific to any program or activity that is no longer authorized by law. If the Managed Care Plan works on a program or activity no longer authorized by law after the date the legal authority for the work ends, the Managed Care Plan will not be paid for that work. If the state paid the Managed Care Plan in advance to work on a no- longer-authorized program or activity and under the terms of this Contract the work was to be performed after the date the legal authority ended, the payment for that work must be returned to the State.

2. Rate Adjustments and Reconciliations

- a. The Managed Care Plan and the Agency acknowledge that the capitation rates paid under this Contract are subject to approval by the federal government.
- b. The Managed Care Plan and the Agency acknowledge that adjustments to funds previously paid, and to funds yet to be paid, may be required. Funds previously paid shall be adjusted when capitation rate calculations are determined to have been in error, or when capitation rate payments have been made for enrollees who are determined not to have been eligible for Managed Care Plan membership during the period for which the capitation rate payments were made. In such events, the Managed Care Plan and any subcontractor shall report to the State within sixty (60) days when it has identified capitation payments or other payments in excess of amounts specified in this Contract. The Managed Care Plan agrees to refund any overpayment, and the Agency agrees to pay any underpayment (42 CFR 438.608(c)(3)).

UPDATE: OCTOBER 1, 2025

Section X. Method of Plan Payment

- c. Capitation rates shall be adjusted to reflect budgetary changes in the Medicaid program. The rate of payment and total dollar amount may be adjusted with a properly executed amendment when Medicaid expenditure changes have been established through the appropriations process and subsequently identified in the Agency's operating budget. Legislatively mandated changes shall take effect on the dates specified in the legislation. The Agency may not approve any Managed Care Plan request for a rate increase unless sufficient funds to support the increase have been authorized in the General Appropriations Act (Section 409.968(3), F.S.).
- d. In accordance with Section 409.967(3) and 42 CFR 438.8(k) and (m) F.S., the Managed Care Plan's ASR shall be verified as specified in this Contract.

3. Errors

The Managed Care Plan shall carefully prepare all reports and monthly payment requests for submission to the Agency. If after preparation and electronic submission, the Managed Care Plan discovers an error, including, but not limited to, errors resulting in capitated payments or other payments in excess of amounts specified in this Contract, either by the Managed Care Plan or the Agency, the Managed Care Plan has sixty (60) days from its discovery of the error, or sixty (60) days after receipt of notice by the Agency, to correct the error and re-submit accurate reports. Failure to respond within the sixty (60)-day period shall result in a loss of any money due to the Managed Care Plan for such errors and/or sanctions against the Managed Care Plan pursuant to **Section XII.**, Sanctions and Corrective Action Plans.

4. Enrollee Payment Liability Protection

- a. Pursuant to s. 1932(b)(6), Social Security Act (as enacted by Section 4704 of the Balanced Budget Act of 1997), the Managed Care Plan shall not hold enrollees liable for debts of the Managed Care Plan, in the event of the Managed Care Plan's insolvency (42 CFR 438.106(a)).
- b. The Managed Care Plan shall not hold enrollees liable for payment of covered services provided by the Managed Care Plan if the Managed Care Plan has not received payment from the Agency for the covered services, or if the provider, under contract or other arrangement with the Managed Care Plan, fails to receive payment from the Agency or the Managed Care Plan (42 CFR 438.106(b)(1)-(2); 42 CFR 438.3(k); 42 CFR 438.230).
- c. The Managed Care Plan shall not hold enrollees liable for payments to a provider, including referral providers, that furnished covered services under a contract or other arrangements with the Managed Care Plan, that are in excess of the amount that normally would be paid by the enrollee if the covered services had been received directly from the Managed Care Plan (42 CFR 438.106(c); 42 CFR 438.3(k); 42 CFR 438.230).

5. Quality Withhold Incentive

- a. Each year, the Agency shall withhold two percent (2%) of the Managed Care Plan's capitation rate, with the withhold to be earned based on the Managed Care Plan's performance according to specific performance measures compared against national performance standards.

- (b) Follow-up after Emergency Department Visit for Mental Illness – 7-day (FUM-7)
- (c) Timeliness of Prenatal Care (PPC-Pre)
- (d) Postpartum Care (PPC-Post)

- c. The Managed Care Plan shall earn points for each measure based on the Managed Care Plan's performance rate relative to the National Committee for Quality Assurance's (NCQA's) National Medicaid Percentile for the measure.

- (1) For Group A measures, points will be earned as follows in the Points for Quality Withhold Incentive – Group A HEDIS Measures Table, **Table 7**, below:

- d. Earned points for the ten (10) measures will be added together to determine the Total Quality Points for the Managed Care Plan. The maximum number of Total Quality Points the Managed Care Plan may earn is five (5) multiplied by the total number of performance measures that the Managed Care Plan reports to the Agency. For example, if the Managed Care Plan has reportable rates for all ten (10) measures, then the plan's maximum number of Total Quality Points is fifty (50). If the plan has reportable rates for eight (8) measures, then the plan's maximum number of Total Quality Points is forty (40).
- e. If the Managed Care Plan's Total Quality Points equals or exceeds an average of two (2) points per reportable performance measure, then the Managed Care Plan shall earn its full two percent (2%) withhold. For example, if the Managed Care Plan reports ten (10) measures to the Agency and earns twenty (20) Total Quality Points, then the Managed Care Plan shall earn its two percent (2%) withhold. If the Managed Care Plan reports eight (8) measures to the Agency and earns sixteen (16) Total Quality Points, then the Managed Care Plan shall earn its two percent (2%) withhold. If the Managed Care Plan's Total Quality Points are below an average of two (2) points per reportable performance measure, then the Managed Care Plan shall not receive its full withhold but may receive a portion of the withhold based on the percentage of Total Quality Points earned to maximum number of points possible.
- f. Withhold not earned back by the Managed Care Plan shall be directed to a Quality Bonus Pool.
- g. Each year, if the Managed Care Plan earns its full 2% withhold and there is a Quality Bonus Pool created by other Managed Care Plans that have not earned their full withholds, then the Managed Care Plan may be eligible to earn an additional incentive payment from the Quality Bonus Pool based on the percentage of Total Quality Points earned to maximum number of points possible.
- h. If every Managed Care Plan receives its full two percent (2%) withhold, then there will not be a Quality Bonus Pool available for distribution that year.
- i. The Agency reserves the right to change the Quality Withhold Incentive methodology in the future.

If original records are required, and they cannot be made available in a Florida location as specified herein, the Managed Care Plan shall make the records available for the CPA to review at the applicable location and shall pay any expenses related to the CPA's review at that location.
 - (3) Failure to comply with such record requests, including failure to provide records, reports, and documentation to the Agency or CPA by the dates requested, shall be deemed a breach of Contract, and the Managed Care Plan shall be subject to sanctions as specified in **Section XII.**, Sanctions and Corrective Action Plans.

In accordance with Section 409.967(3)(i), F.S., if the Managed Care Plan incurs a loss in the first year of operation subject to the achieved saving rebate, it may apply the full amount of such loss as an offset to income in the second year. If the Managed Care Plan elects to carry forward such a loss, then the life-years of coverage for the first year of coverage shall also carry over to the second year.
- o. In accordance with Section 409.967(3)(j), F.S., if the Agency later determines that the Managed Care Plan owes an additional rebate, the Managed Care Plan shall have thirty (30) days after notification by the Agency to make payment. 1. Insolvency Protection Requirements

a. Insolvency Protection Requirements for the PSN

- (1) The PSN shall furnish to the Agency a performance bond in an amount equal to the greater of five hundred thousand dollars (**\$500,000**), ten percent (10%) of total liabilities, or two percent (2%) of the annualized amount of the PSN's prepaid revenues for all regions in which the PSN is awarded a Contract. If the PSN is awarded more than one (1) region, the PSN shall furnish a single bond for the total amount of the foregoing.
- (2) The bond must be furnished to the Agency within thirty (30) calendar days after execution of the Contract and prior to commencement of any work under this Contract. Thereafter, the bond shall be furnished on an annual basis, thirty (30) calendar days prior to the new Contract year for the same amount as required for the initial performance bond. A copy of all performance bonds shall be submitted to the Agency's Contract Manager. The performance bond must not contain any provisions that shorten the time for bringing an action to a time less than that provided by the applicable Florida Statute of Limitations. See Section 95.03, F.S. No payments shall be made to the PSN until an acceptable performance bond is furnished to the Agency.
- (3) The PSN shall maintain an effective performance bond for the full term of this Contract, including any renewal period. The Agency shall be named as the beneficiary of the PSN's bond. The bond shall provide that the insurer or bonding company(s) pay losses suffered by the Agency directly to the Agency.
- (4) The PSN shall bear cost of the performance bond.
- (5) In the event that a determination is made by the Agency that the PSN is insolvent or this Contract terminates, an assessment against the bond shall be made by the Agency to pay any outstanding debts the PSN owes the Agency, including, but not limited to, overpayments made to the PSN, such amounts as may be required to protect enrollees in the event the PSN is unable to meet its obligations, and fines imposed under this Contract or Florida law. In addition, an assessment against the bond shall be made by the Agency to cover the costs of issuing a new solicitation and selecting a new PSN. The PSN agrees that the Agency's damages in the event of a termination by the PSN shall be considered to be in excess of the full amount of the bond. The Agency need not prove the damage amount or provide notice to the PSN in exercising its

- (6) If the Contract is not renewed, the Agency shall release the bond to the PSN upon receipt of proof of satisfaction of all outstanding obligations incurred under this Contract.

b. **Insolvency Protection Requirements for Eligible Plans excluding PSNs**

- (1) The Managed Care Plan shall establish a restricted insolvency protection account with a federally guaranteed financial institution licensed to do business in Florida in accordance with s. 1903(m)(1) of the Social Security Act (amended by Section 4706 of the Balanced Budget Act of 1997). The Managed Care Plan shall deposit into that account five percent (5%) of the capitation payments made by the Agency each month until a maximum total of two percent (2%) of the annualized total current Contract amount is reached and maintained. No interest may be withdrawn from this account until the maximum Contract amount is reached and withdrawal of the interest shall not cause the balance to fall below the required maximum amount. This provision shall remain in effect as long as the Managed Care Plan continues this Contract with the Agency as consideration and security for the performance of the obligations under this Contract by the Managed Care Plan.
- (2) The restricted insolvency protection account may be drawn upon with the authorized signatures of two (2) persons designated by the Managed Care Plan and two (2) representatives of the Agency. The Multiple Signature Verification Agreement Form shall be resubmitted to the Agency within thirty (30) days of Contract execution and resubmitted within thirty (30) days after a change in authorized Managed Care Plan personnel occurs. If the authorized persons remain the same, the Managed Care Plan shall submit to the Agency an attestation to this effect April 1 of each Contract year to the Agency along with a copy of the latest bank statement. The Managed Care Plan may obtain a sample Multiple Signature Verification Agreement form from the Agency or its agent or download from the Agency website at: [https://ahca.myflorida.com/Medicaid/statewide mc/app contract materials.sht](https://ahca.myflorida.com/Medicaid/statewide_mc/app_contract_materials.sht).

The Managed Care Plan shall submit all such agreements or other signature cards to the Agency for prior approval.

- (3) In the event that the Agency determines the Managed Care Plan is insolvent, the Agency may draw upon the amount solely with the two (2) authorized signatures of representatives of the Agency, and the Agency may disburse funds to meet financial obligations incurred by the Managed Care Plan under this Contract. A statement of account balance shall be provided by the Managed Care Plan within fifteen (15) days of the request from the Agency.
- (4) If the Agency terminates or does not renew this Contract, the Agency shall release the account balance to the Managed Care Plan upon

receipt of proof of satisfaction of all outstanding obligations incurred under this Contract.

- (5) In the event the Agency terminates or does not renew this Contract and the Managed Care Plan is insolvent, the Agency may draw upon the insolvency protection account to pay any outstanding debts the Managed Care Plan owes the Agency, including, but not limited to, overpayments made to the Managed Care Plan and fines imposed under this Contract or, for HMOs, s. 641.52, F.S., for EPOs, Chapter 627, F.S., and for health insurers, Chapter 624, F.S., for which a final order has been issued. The Managed Care Plan authorizes the Agency to file one or more financial statements or similar records covering the insolvency protection account where filing is deemed to be necessary or desirable by the Agency. The Managed Care Plan shall execute and deliver, or cause to be executed and delivered, such other documents as the Agency may from time-to-time request to perfect or further evidence the pledge, security interest and assignment created in the insolvency protection account by this Contract. No financial statement or similar record covering all or any portion of the insolvency protection account shall be on file in any public office unless the Agency has approved that filing. In addition, if the Agency terminates or does not renew this Contract, and the Managed Care Plan is unable to pay all of its outstanding debts to health care providers, the Agency and the Managed Care Plan shall agree to the court appointment of an impartial receiver for the purpose of administering and distributing the funds contained in the insolvency protection account. An appointed receiver shall give outstanding debts owed to the Agency priority over other claims.

2. Insolvency Protection Account Waiver for Eligible Plans excluding PSNs

The Agency may waive the insolvency protection account in writing when evidence of adequate insolvency insurance and reinsurance are on file with the Agency to protect enrollees in the event the Managed Care Plan is unable to meet its obligations (42 CFR 438.6(b)(1)).

3. Insolvency Protection Investment Option for Eligible Plans excluding PSNs

- a. At the discretion of and upon written permission granted by the Agency, a Managed Care Plan that has fully funded their restricted insolvency protection account in accordance with this Section, and has met surplus requirements in accordance with this Section for the previous six (6) consecutive quarters may invest the full value of the required insolvency protection account balance in U.S. Treasury Securities (Securities) which are backed by the full faith and credit of the U.S. government through the utilization of a custodial account at a federally guaranteed financial institution licensed to do business in Florida in accordance with s. 1903(m)(1) of the Social Security Act (amended by Section 4706 of the Balanced Budget Act of 1997), and Section 409.912, F.S. A listing of approved Securities is specified in the table below. Securities held in the custodial account shall not be pledged to any entity other than the Agency, and trading on margin shall be prohibited.

Section XI. Financial Requirements

- b. The Managed Care Plan shall safeguard against potential losses in value by depositing an additional amount equal to the estimated decrease in account value that would occur for a one hundred (100) basis points (1%) increase in the Federal Funds rate. The amount of this deposit shall be approved by the Agency upon account inception and can be held in either Securities or cash.
- c. The custodial investment insolvency protection account may be drawn upon with the authorized signatures of two (2) persons designated by the Managed Care Plan and two (2) representatives of the Agency. The Multiple Signature Verification Agreement for Custody Arrangements Form shall be submitted to the Agency within thirty (30) calendar days of account execution and resubmitted within thirty (30) calendar days after a change in authorized Managed Care Plan personnel occurs. If the authorized persons remain the same, the Managed Care Plan shall submit an attestation to this effect April 1 of each Contract year to the Agency along with a copy of the latest bank statement and summary of transactions for the month prior.
- d. The Managed Care Plan assumes sole responsibility for monitoring the custodial investment insolvency account to ensure the total value of all Securities shall not fall below the required insolvency protection account balance pursuant this Section. The Managed Care Plan shall submit to the Agency a monthly account valuation within fifteen (15) calendar days after the end of each reporting month. The monthly account valuation shall include a complete transaction history of purchased and/or sold Securities within the reporting period, the custodial investment insolvency protection account balance, and shall take into consideration all factors that may affect the total value of the custodial investment insolvency protection account. In the event that the total value of the custodial investment insolvency protection account is less than the required insolvency protection account balance at any time, the Managed Care Plan shall make a capital contribution in the form of cash and/or Securities within five (5) business days equal to the difference between the current value and the required insolvency protection account balance. Documentation evidencing this contribution shall be included with the monthly valuation. Should the Managed Care Plan fail to maintain the required insolvency protection account balance, the Agency, at its sole discretion, reserves the right to require the Managed Care Plan to re-establish a restricted insolvency protection account in accordance with Section X.A.1 (42 CFR 438.604(a)(4); 42 CFR 438.606).
- e. The Agency, at its sole discretion, may require the plan to re-establish a restricted insolvency protection account in accordance with this Section. The re-established account shall be funded by the liquidated proceeds of all Securities held in the insolvency protection investment account at the time the Agency required its re-establishment, plus any additional cash required to fully fund the account on its opening.

Upon receipt of the executed Multiple Signature Verification Agreement for Custody Arrangements, the Managed Care Plan may initiate the purchase or sale of Securities with only the Managed Care Plan's authorized representatives' signatures, provided that the Securities sold or purchased are in accordance with the Agency's guidelines of approved Securities as listed in the table below, and the transaction results in an equal amount of incoming

Withdrawals from the investment insolvency protection account that do not result in an equal amount of incoming cash or Agency-approved Securities on the same day of the transaction requires the authorized signatures of two (2) Managed Care Plan representatives and two (2) Agency representatives.

- f. In the event that the Agency determines the Managed Care Plan is insolvent, the Agency may, in the Agency's sole discretion and without any requirement or obligation, draw upon or initiate the sale of Securities from the custodial investment insolvency protection account solely with the two (2) authorized signatures of representatives of the Agency and funds may be disbursed to meet financial obligations incurred by the Managed Care Plan under this Contract. The Managed Care Plan shall not initiate any transactions subsequent to notification by the Agency that the Agency has determined the Managed Care Plan to be insolvent. The Managed Care Plan shall provide a statement of account balance within fifteen (15) calendar days of request of the Agency.
- g. If this Contract is terminated or not renewed, the custodial investment insolvency protection account balance shall be released by the Agency to the Managed Care Plan upon the receipt of proof of satisfaction for all outstanding obligations incurred under this Contract.
- h. In the event this Contract is terminated, not renewed, and/or the Managed Care Plan is declared insolvent, the Agency may, in the Agency's sole discretion and without any requirement or obligation, draw upon or initiate the sale of Securities from the investment insolvency protection account to pay any outstanding debts the Managed Care Plan owes the Agency, including, but not limited to, overpayments made to the Managed Care Plan, and fines imposed under this Contract or, for HMOs, s. 641.52, F.S., for EPOs, s. 627, F.S., and for health insurers, s. 624, F.S. **Table 10**, Custodial Investment Insolvency Protection Account Approved Securities Table, below, lists the maturity term and guarantee for the respective Security. The Managed Care Plan authorizes the Agency to file one or more financing statements or similar records covering the investment insolvency protection account where filing is deemed to be necessary or desirable by the Agency. The Managed Care Plan shall execute and deliver, or cause to be executed and delivered, such other documents as the Agency may from time-to-time request to perfect or further evidence the pledge, security interest and assignment created in the investment insolvency protection account by this Contract. No financing statement or similar record covering all or any portion of the investment insolvency protection account shall be on file in any public office unless the Agency has approved that filing. In addition, if the above occurs and the Agency, in its sole discretion, determines that it would be in the best interest of the providers for the court appointment of an impartial receiver for the purpose of administering and distributing the funds contained in the custodial or controlled account, the Managed Care Plan shall agree to the appointment. An appointed receiver shall give outstanding debts owed to the Agency priority over other claims.

D. Third Party Resources for All Eligible Plans

1. Covered Third Party Collections

- a. The Managed Care Plan shall identify and seek recovery up to the Managed Care Plan's full legal ability from any third party, as defined by 409.901(27), F.S., to pay for services rendered to enrollees under this Contract and notify the Agency of when any third party was identified and when recovery was made.
- b. The Managed Care Plan shall have exclusive recovery rights for all third party recovery actions within fifteen (15) months from the Managed Care Plan's date of payment on the claim. The Managed Care Plan shall maintain exclusive recovery rights on a claim if the initial recovery request is issued to the liable third party within the fifteen (15) months from the Managed Care Plan's date of payment on the claim.

Any claims for which the Managed Care Plan has not issued a recovery request to the liable third party within fifteen (15) months of the Managed Care Plan's date of payment may be pursued by the Agency, at the Agency's sole discretion. All funds recovered from the Agency's efforts shall be retained by the Agency.

- c. The following standards govern third party recoveries:
 - (1) If the Managed Care Plan has determined that third party liability exists for part or all of the services provided to an enrollee by a subcontractor or referral provider, and the third party is reasonably expected to make payment within one hundred twenty (120) days, the Managed Care Plan may pay the subcontractor or referral provider only the amount, if any, by which the subcontractor's allowable claim exceeds the amount of the anticipated third party payment; or, the Managed Care Plan may assume full responsibility for third party collections for service provided through the subcontractor or referral provider.
 - (2) The Managed Care Plan may not withhold payment for services provided to an enrollee if third party liability or the amount of liability cannot be determined, or if payment shall not be available within a reasonable time, beyond one hundred twenty (120) days from the date of receipt.

- c. If the Managed Care Plan elects to authorize the Agency to recover covered third party collections on its behalf, all recoveries, less the Agency's cost to recover, shall be income to the Managed Care Plan. The Managed Care Plan shall either collect patient responsibility from all of its residential providers or transfer collection to all of its residential providers.

Section XIII. Liquidated Damages

Section XIII. Liquidated Damages

The Agency shall be responsible for imposing liquidated damages as a result of failure to meet any aspect of the responsibilities of this Contract and its Exhibits. The Managed Care Plan agrees that failure to meet any aspect of the responsibilities of this Contract may result in the assessment of damages in accordance with **Section XIII.**, Liquidated Damages.

A. Damages

1. If the Managed Care Plan breaches this Contract, the Agency shall be entitled to monetary damages in the form of actual, consequential, direct, indirect, special, and/or liquidated damages. In some cases, the actual damage to the Agency as a result of the Managed Care Plan's failure to meet any aspect of the responsibilities of this Contract and/or to meet specific performance standards set forth in this Contract will be difficult or impossible to determine with precise accuracy. Therefore, in the event of a breach of this Contract, the Managed Care Plan shall be subject to the imposition of liquidated damages in writing against the Managed Care Plan. The Managed Care Plan shall be assessed liquidated damages regardless of whether the breach is the fault of the Managed Care Plan (including the Managed Care Plan's subcontractors, agents and/or consultants), provided the Agency has not materially caused or contributed to the breach. The Agency may impose liquidated damages in addition to any sanctions imposed pursuant to **Section XII.**, Sanctions and Corrective Action Plans.
2. The liquidated damages prescribed in this Section are not intended to be in the nature of a penalty but are intended to be reasonable estimates of the Agency's projected financial loss and damage resulting from the Managed Care Plan's nonperformance, including financial loss as a result of project delays. Accordingly, in the event the Managed Care Plan fails to perform in accordance with this Contract, the Agency may assess liquidated damages as provided in this Section.
3. If the Managed Care Plan fails to perform any of the services described in this Contract, the Agency may assess liquidated damages for each occurrence listed in **Table 11**, Liquidated Damages Issues and Amounts Table. Any liquidated damages assessed by the Agency shall be due and payable to the Agency within thirty (30) days after the Managed Care Plan's receipt of the notice of damages, regardless of any dispute in the amount or interpretation which led to the notice. The Agency shall have sole authority to determine the application of an occurrence (e.g., per unit of service, per date of service, per episode of service, per complaint, or per enrollee).
4. The Agency may elect to collect liquidated damages:
 - a. Through direct assessment and demand for payment delivered to the Managed Care Plan.
 - b. By deduction of amounts assessed as liquidated damages from, and as set off against payments then due to the Managed Care Plan or that become due at any time after assessment of the liquidated damages. The Managed Care Plan shall be subject to deductions until the Agency has collected the full amount payable by the Managed Care Plan.
5. The Managed Care Plan shall not pass through liquidated damages imposed under this Contract to a provider and/or subcontractor, unless the provider and/or subcontractor caused the damage through its own action or inaction. Nothing described herein shall

6. All liquidated damages imposed pursuant to this Contract, whether paid or due, shall be paid by the Managed Care Plan out of administrative costs and profits.
7. Subject to legislative approval, the Agency reserves the right to redirect any amounts assessed as liquidated damages towards QI activities that target and support Agency goals or initiatives.
8. To dispute the imposition of liquidated damages, the Managed Care Plan must request that the Agency's Secretary, or designee, hear and decide the dispute.
 - a. The Managed Care Plan must submit a written dispute of the liquidated damages directly to the Agency via an electronic submission process; the Agency will not accept deliveries by U.S. mail, commercial courier service, or hand.

 - b. The Managed Care Plan waives any dispute not raised within twenty-one (21) days of receiving notice of the imposition of liquidated damages. It also waives any arguments it fails to raise in writing within twenty-one (21) days of receiving said notice, and waives the right to use any materials, data, and/or information not contained in or accompanying the Managed Care Plan's submission within the twenty-one (21) days following its receipt of the notice in any subsequent legal, equitable, or administrative proceeding (to include circuit court, federal court and any possible administrative venue).

In accordance with s. 1932(e)(4), Social Security Act, the Managed Care Plan shall be provided with an opportunity for a hearing prior to termination for cause. This does not preclude the Agency from terminating without cause.
4. Upon receipt of final notice of termination, on the date and to the extent specified in the notice of termination, the Managed Care Plan shall:
 - a. Continue work under this Contract until the termination date unless otherwise required by the Agency
 - b. Cease enrollment of new enrollees under this Contract

7. If the Managed Care Plan Contract is terminated by either the Managed Care Plan or the Agency (with cause) prior to the end of this Contract period, the Managed Care Plan shall be assessed the performance bond required under this Contract to cover the costs of issuing a solicitation and selecting a new Managed Care Plan. The Agency's damages in the event of termination shall be considered to be the full amount of the bond. The Agency need not prove the damage amount in exercising its right of recourse against the bond.

4. The terms of this Contract do not limit or waive the ability, authority or obligation of the OIG, MPI, its contractors, DOEA, or other duly constituted government units (State or federal) to audit or investigate matters related to or arising out of this Contract.
5. This Contract shall be amended only as follows (unless specified elsewhere in this Contract):

2. The Secretary, or designee, shall decide the dispute under the reasonableness standard, reduce the decision to writing and serve a copy to the Managed Care Plan. This written decision shall be final.
3. The exclusive venue of any legal or equitable action that arises out of or relating to this Contract, including an appeal of the final decision of the Secretary, or designee, shall be Circuit Court in Leon County, Florida; in any such action, the Managed Care Plan agrees to waive its rights to a jury trial, and that the Circuit Court can only review the final decision for reasonableness, and Florida law shall apply. In the event the Agency issues any action under Florida Statutes or Florida Administrative Code apart from this Contract, the Managed Care Plan shall receive notice of the appropriate administrative remedy.

J. Indemnification

1. The Managed Care Plan agrees to indemnify, defend, and hold harmless the Agency, as provided in this Clause.
2. Scope. The Duty to Indemnify and the Duty to Defend, as described herein (collectively known as the "Duty to Indemnify and Defend"), extend to any completed, actual, pending, or threatened action, suit, claim, or proceeding, whether civil, criminal, administrative, or investigative (including any action by or in the right of the Managed Care Plan), and whether formal or informal, in which the Agency is, was, or becomes involved and which in any way arises from, relates to, or concerns the Managed Care Plan's acts or omissions related to this Contract (inclusive of all Attachments and Exhibits) (collectively "Proceeding").

The Managed Care Plan agrees to hold harmless and indemnify the Agency to the full extent permitted by law against any and all liability, claims, actions, suits, judgments, damages, and costs of whatsoever name and description, including attorneys' fees, arising from or relating to any Proceeding.
 - b. Duty to Defend. With respect to any Proceeding, the Managed Care Plan agrees to fully defend the Agency and shall timely reimburse all of the Agency's legal fees and costs; provided, however, that the amount of such payment for attorneys' fees and costs is reasonable pursuant to Rule 4-1.5, Rules Regulating the Florida Bar. 4. Enforcement Action. In the event that any claim for indemnity, whether an Expense Advance or otherwise, is made hereunder and is not paid in full within sixty (60) days after written notice of such claim is delivered to the Managed Care Plan, the Agency may, but need not, at any time thereafter, bring suit against the Managed Care Plan to recover the

5. Contribution. In any Proceeding in which the Managed Care Plan is held to be jointly liable with the Agency for payment of any claim of any kind (whether for damages, attorneys' fees, costs, or otherwise), if the Duty to Indemnify provision is for any reason deemed to be inapplicable, the Managed Care Plan shall contribute toward satisfaction of the claim whatever portion is or would be payable by the Agency in addition to that portion which is or would be payable by the Managed Care Plan, including payment of damages, attorneys' fees, and costs, without recourse against the Agency. No provision of this part, or of any other section of this Contract (inclusive of all Attachments and Exhibits), whether read separately or in conjunction with any other provision, shall be construed to: (i) waive the State or the Agency's immunity to suit or limitations on liability; (ii) obligate the State or the Agency to indemnify the Managed Care Plan for the Managed Care Plan's own negligence, or otherwise assume any liability for the Managed Care Plan's own negligence; or (iii) create any rights enforceable by third parties, as third party beneficiaries or otherwise, in law or in equity.

K. Public Records Requests

1. The Managed Care Plan shall keep and maintain public records that ordinarily and necessarily would be required in order to perform services under this Contract.
2. The Managed Care Plan shall provide the public with access to public records on the same terms and conditions that the Agency would provide the records and at a cost that does not exceed the cost provided in s. 119.0701, F.S., or as otherwise provided by law.
3. The Managed Care Plan agrees that it is the custodian of any and all recordings for purposes of the Public Records Act, Chapter 119, F.S., and is solely responsible for responding to any public records requests for recordings. This responsibility includes gathering, redacting, duplication, and provision of the recordings, as well as defense of any actions for enforcement brought pursuant to Section 119.11, F.S.

L. Communications

Notwithstanding any term or condition of this Contract to the contrary, the Managed Care Plan bears sole responsibility for ensuring that its performance of this Contract (and that of its subcontractors related to this Contract) fully complies with all State and federal law governing the monitoring, interception, recording, use or disclosure of wire, oral or electronic communications, including, but not limited to, the Florida Security of Communications Act, Sections 934.01, et seq., F.S., and the Electronic Communications Privacy Act, 18 U.S.C. 2510 et seq. (hereafter, collectively, "Communication Privacy Laws").

1. Prior to intercepting, recording, or monitoring any communications which are subject to Communication Privacy Laws, the Managed Care Plan must:
 - a. Submit a plan which specifies in detail the manner in which the Managed Care Plan (and its subcontractors related to this Contract) shall ensure that such actions are in full compliance with Communication Privacy Laws (the "Privacy Compliance Plan").
 - b. Obtain written approval, signed and stamped by the Agency Contract Manager, of the Privacy Compliance Plan.
2. No modifications to an approved Privacy Compliance Plan may be implemented by the Managed Care Plan unless an amended Privacy Compliance Plan is submitted to the Agency, and written approval of the amended Plan is signed and stamped by the Agency Contract Manager. Agency approval of the Managed Care Plan's Privacy Compliance Plan in no way constitutes a representation by the Agency that the Privacy Compliance Plan is in full compliance with applicable Communication Privacy Laws, or otherwise shifts or diminishes the Managed Care Plan's sole burden to ensure full compliance with applicable Communication Privacy Laws in all aspects of the Managed Care Plan's performance of this Contract. Violation of this term may result in sanctions to include termination of this Contract and/or liquidated damages.

M. Audits and Monitoring

1. The Agency may conduct, or have conducted, performance and/or compliance reviews, reviews of specific records or other data as determined by the Agency. The Agency may conduct a review of a sample of analyses performed by the Managed Care Plan to verify the quality of the Managed Care Plan's analyses. 3. Refusal by the Managed Care Plan to allow access to all records, documents, papers, letters, other materials or on-site activities related to this Contract performance shall constitute a breach of this Contract.

5. The Managed Care Plan shall be responsible for all storage fees associated with all records maintained under this Contract. The Managed Care Plan is also responsible for the destruction of all records that meet the retention schedule noted above.

O. Employment

The Managed Care Plan shall comply with Section 274A of the Immigration and Nationality Act. The Agency shall consider the employment by any Managed Care Plan of unauthorized aliens a violation of this Act. Prior to the initiation of services under this Contract, the Managed Care Plan shall disclose, in writing, all intellectual properties relevant to the performance of this Contract which the Managed Care Plan knows, or should know, could give rise to a patent or copyright. The Managed Care Plan shall retain all rights and entitlements to any pre-existing intellectual property which is so disclosed. Failure to disclose shall indicate that no such property exists. The Agency will then have the right to all patents and copyrights which arise as a result of performance under this Contract as provided in this Sub-Section.
5. If any discovery or invention arises or is developed in the course of, or as a result of, work or services performed under this Contract, or in any way connected herewith, the Managed Care Plan shall refer the discovery or invention to the Agency for a determination whether patent protection shall be sought in the name of the State of Florida. Upon completion of the Managed Care Plan's performance or otherwise cancellation or termination of this Contract, the Managed Care Plan shall surrender and deliver to the Agency, freely and voluntarily, all of the above-described information remaining in the Managed Care Plan's possession.

11. The Managed Care Plan warrants that all materials produced hereunder shall be of original development by the Managed Care Plan and shall be specifically developed for the fulfillment of this Contract and shall not knowingly infringe upon or violate any patent, copyright, trade secret, or other property right of any third party, and the Managed Care Plan shall indemnify and hold the Agency harmless from and against any loss, cost, liability, or expense arising out of any breach or claimed breach of this warranty.
12. The terms and conditions specified in this Sub-Section shall also apply to any subcontract made under this Contract. The Managed Care Plan shall be responsible for informing the subcontractor of the provisions of this Sub-Section and obtaining disclosures.

- (b) **Brand or Generic Effective Rate :** Contractual rate set forth by a PBM for the reimbursement of covered brand or generic drugs calculated using the total payments in the aggregate, by drug type, during the performance period. The effective rates are typically calculated as a discount off of industry benchmarks such as average wholesale price (AWP) or wholesale acquisition cost (WAC).
- (c) **Direct and Indirect Remuneration Fees (DIR):** Price concessions that are paid to the Managed Care Plan or PBM by the pharmacy retrospectively, which cannot be calculated at the point of sale. DIR can include discounts, chargebacks or rebates, cash discounts, free goods contingent on a purchase agreement, upfront payments, coupons, goods in kind, free or reduced-price services, grants, or other price concessions or similar benefits from manufacturers, pharmacies, or similar entities.
- (d) **Dispensing Fee:** Fee intended to cover reasonable costs associated with providing the drug to a Medicaid beneficiary. This cost includes the pharmacist's services and the overhead associated with maintaining the facility and equipment necessary to operate the pharmacy.
- (e) **Erroneous Claims:** Pharmacy claims submitted in error including but not limited to unintended, incorrect, fraudulent or test claims.
- (f) **Incentive Payment:** A retrospective monetary payment made as a reward or recognition by the Managed Care Plan or PBM to a pharmacy for meeting and/or exceeding predefined pharmacy

- (2) All Managed Care Plan subcontracts with a PBM must contain provisions to prohibit the use of spread pricing.
- (a) Contracts between the Managed Care Plan and the PBM responsible for coverage of covered outpatient drugs dispensed to the Managed Care Plan's enrollees shall require that payment for such drugs and related administrative services (as applicable), including payments made by a PBM on behalf of the Managed Care Plan, be based on a Pass-Through Pricing model.
 - (b) A Pass-Through Pricing model is the Managed Care Plan's payment to the PBM for a covered outpatient drug that is equivalent to the PBM payment to the dispensing pharmacy or provider. Such payments may include a contracted professional dispensing fee between the PBM and its network of pharmacies that would be paid if the Managed Care Plan was making the payment directly. The pass-through payment is passed through in its entirety by the Managed Care Plan or PBM to the pharmacy or provider that dispenses the drug. Pass-through payments must be paid in a manner that is not offset by any reconciliation process. Pass-through payments must remain consistent with Section 1 of Executive Order Number 22-164.
 - (c) If the Managed Care Plan fails to comply with the provisions prohibiting the use of spread pricing, the Managed Care Plan may be subject to sanctions pursuant to **Section XII.**, Sanctions and Corrective Action Plans, or liquidated damages pursuant to **Section XIII.**, Liquidated Damages, as determined by the Agency.

Section XIII. Liquidated Damages

2. In addition to the provisions set forth in **Attachment II and its Exhibits**, the Agency will review the Specialty product's performance related to the performance measures specified heretofore to determine acceptable performance levels and may set liquidated damages for these measures based on those levels after the first year of the Contract.

C. Performance Measure Liquidated Damages

1. The Agency may impose liquidated damages for performance measures as described below in the event that the Managed Care Plan fails to perform at the level of the Agency's expected minimum standards, as specified in **Item 2.**, of this **Sub-Section**.

The Managed Care Plan's performance measure rates shall be compared to the NCQA HEDIS National Means and Percentiles for Medicaid plans. For each measure where the Managed Care Plan's rate falls below the fiftieth (50th) percentile, the Managed Care Plan may receive liquidated damages. Liquidated damages will be calculated based on the number of members eligible for the measure who did not receive the service being measured up to the fiftieth (50th) percentile rate. For measures calculated using a sample, liquidated damages will be calculated based on the extrapolated number of eligible members who did not receive the service being measured, not just those in the sample, up to the fiftieth (50th) percentile rate.

2. For performance measures in Tier 1 where the Managed Care Plan's rate is below the fiftieth (50th) percentile, liquidated damages may be assessed at one hundred seventy-five dollars (**\$175**) per eligible member not receiving the service being measured up to the fiftieth (50th) percentile rate for the measure.
3. For performance measures in Tier 2 where the Managed Care Plan's rate is below the fiftieth (50th) percentile, liquidated damages may be assessed at one hundred twenty-five dollars (**\$125**) per eligible member not receiving the service being measured up to the fiftieth (50th) percentile rate for the measure.
4. For performance measures in Tier 3 where the Managed Care Plan's rate is below the fiftieth (50th) percentile, liquidated damages may be assessed at one hundred dollars (**\$100**) per eligible member not receiving the service being measured up to the fiftieth (50th) percentile rate for the measure.
5. The Agency may reduce the liquidated damage amount for Tier 1 by fifty dollars (**\$50**), Tier 2 by thirty-five dollars (**\$35**), and Tier 3 by twenty dollars (**\$20**) per eligible enrollee when:
 - a. The rate for a performance measure has improved three (3) percentage points or more compared to the previous reporting period; and
 - b. The rate for the performance measure is between the fortieth (40th) and fiftieth (50th) percentiles.
6. The Agency may assess liquidated damages for each of the following measures:

- (3) No more than a ratio of fifteen (15) enrollees to one (1) case manager for enrollees under age twenty-one (21) years who reside in a skilled nursing facility.

- c. The Managed Care Plan may implement a mixed caseload of enrollees.
 - (1) Where the case manager's caseload consists of enrollees who reside in the community and enrollees who reside in nursing facilities (mixed caseload), and if none of the enrollees who reside in a nursing facility are under the age of twenty-one (21) years, the Managed Care Plan shall ensure that the ratio does not exceed sixty (60) enrollees to one (1) case manager, except as follows: no more than a ratio of forty (40) enrollees to one (1) case manager for enrollees under age twenty-one (21) years receiving private duty nursing services in their family home or other community-based setting.

whose values exceed those outlined above. The Managed Care Plan may establish lower caseload sizes without prior permission of the Agency. The Managed Care Plan shall submit any caseload exception requests to the Agency. The Agency may, at any time, revoke the Managed Care Plan's authorization to exceed caseload ratios.

- d. The Managed Care Plan shall have written protocols to ensure assignment of a case manager immediately upon enrollment of newly enrolled enrollees. The case manager assigned to special subpopulations (e.g., individuals with Acquired Immunodeficiency Syndrome, dementia, behavioral health issues, or traumatic brain injury) shall have experience or training in case management techniques for such subpopulations.
- e. The Managed Care Plan shall ensure that case managers are not assigned duties unrelated to enrollee-specific case management for more than fifteen percent (15%) of their time if they carry a full caseload.
- 7. The Managed Care Plan shall report to the Agency monthly on its case manager caseloads as specified in **Section XV.**, Accountability, and the Managed Care Plan Report Guide.

C. Subcontracts

- 1. Fiscal/Employer Agent
 - a. The Managed Care Plan shall be the Fiscal/Employer Agent (F/EA) for PDO enrollees or may sub-contract this function. Should any of the F/EA duties be sub-contracted, the Managed Care Plan shall provide enrollees with at least thirty (30) days' notice informing them that the Managed Care Plan shall utilize a subcontractor to perform certain F/EA duties.
 - b. The Managed Care Plan or its subcontractor shall perform all F/EA responsibilities as specified in the Participant Direction Option Manual, as provided by the Agency.

D. Information Management and Systems

- 1. The Managed Care Plan shall transmit plan of care data to the Agency in a format prescribed by the Agency and at the request of the Agency.
- 2. If the Managed Care Plan fails to comply with the requirements of this Section, the Managed Care Plan may be subject to sanctions pursuant to **Section XII.**, Sanctions and Corrective Action Plans, or liquidated damages pursuant to **Section XIII.**, Liquidated Damages, as determined by the Agency.

E. Claims and Provider Payment

- 1. For Medicaid only enrollees residing in a nursing facility and receiving hospice services, the Managed Care Plan shall pay the hospice provider the per diem rate set by the Agency for hospice services.

Section X. Method of Plan Payment

A. General Provisions

There are no additional general provisions unique to the LTC managed care program.

B. Fixed Price Unit Contract

There are no additional fixed price unit Contract provisions unique to the LTC managed care program.

C. Payment Provisions

1. Capitation Rates

- a. The Agency will prospectively adjust the base capitation rates included in the Contract to reflect the Managed Care Plan's enrolled risk.
- b. The Agency will develop a pre-enrollment benchmark case mix for each region based on analysis of the most recent twelve (12) months of historical data that allows for three (3) months of claims run out. The enrollment distribution will be calculated using population segmentation logic consistent with that used in rate development. Recipients whose last care setting prior to the start of the capitation rate period was nursing facility will be classified as Non-HCBS. Recipients who become program- eligible after the start of the capitation rate period will be classified as Non-HCBS based on program codes that indicate ICP eligibility. Enrollees not meeting the Non- HCBS classification criteria will be classified as HCBS. For rate purposes, for both the transitioned and new enrollees, the recipient's initial classification will remain valid through the duration of the capitation rate period.
- c. Month One (1): In each region, the Agency will pay the Managed Care Plan a blended capitation rate that reflects the regional pre-enrollment benchmark case mix, adjusted for the Agency-required transition percentage, which shall be included in the Contract. The Agency will later perform a reconciliation based on month one (1) actual enrollment and case mix for each plan.
- d. Subsequent months: For the second month and each subsequent month of the Contract payment period, the Agency will develop a blended capitation rate for the Managed Care Plan, adjusted for the new enrollments and disenrollments that occurred in the previous month, and adjusted for the Agency-required transition percentage.
- e. To the extent that the Managed Care Plan achieves a utilization mix, wherein at least sixty-five percent (65%) of its enrollees are receiving home and community-based services and at least thirty-five percent (35%) are receiving services in an institutional setting, the Managed Care Plan shall accept an incentive adjustment in capitation rates in order to increase the number of enrollees receiving services in the community instead of in an institutional setting. The incentive adjustment shall continue in subsequent contract periods, at a rate of one (1) percentage point per year as compared to the utilization mix at the end of the immediately preceding rate-setting period, until

LONG-TERM CARE (LTC) PROGRAM

Section X. Method of Plan Payment

no more than twenty-five percent (25%) of the Managed Care Plan's enrollees are receiving services in an institutional setting.

2. Rate Adjustments and Reconciliations

- a. Pursuant to Sections 409.983(6) and 409.983(7), F.S., the Agency will reconcile the Managed Care Plan's payments to nursing facilities, including patient responsibility and hospices.
- b. Any Managed Care Plan provider payments to nursing facilities in excess of FFS claim payment will not be reimbursed by the Agency or in any way increase per member per month payment to the Managed Care Plan in any current or future capitation rate setting period. The Managed Care Plan accepts and assumes all risks of excess payments as a cost of doing business and cannot seek additional Medicaid payments for such business decisions. Any inadvertent payments made by the Agency to a Managed Care Plan in excess of the FFS amount shall be overpayments and shall be recouped.
- c. The Agency will set hospice LOC and room and board rates based upon the rate development methodology detailed in 42 CFR Part 418 for per diem rates and Chapter 409.906 (14), F.S., and 59G-4.140, F.A.C., for room and board rates. The Managed Care Plan shall pay hospices an amount no less than the hospice payment rates set by the Agency and published on the Agency website no later than October 1 of each year for per diem rates and January 1 and July 1 of each year for room and board rates for nursing facility residents. The Managed Care Plan shall use the published hospice rates as a minimum payment level for all future payments.
 - (1) Participating hospices shall maintain their active Medicaid enrollment and submit room and board cost logs to the Agency.
 - (2) For changes in hospice per diem and room and board payment rates that apply prospectively, the following process shall be used:
 - (a) The Agency shall annually reconcile between the hospice per diem and room and board payment rates used in the capitation rates paid and the actual published payment rates. The Agency shall perform this hospice- specific reconciliation using the Managed Care Plan's own utilization, as reflected through encounter data that covers the capitation rate period dates of services with at least four (4) months of claims run out.
 - (b) The Managed Care Plan shall review and provide written comments or a letter of concurrence to the Agency within forty-five (45) days after receipt of the reconciliation results. This reconciliation is considered final if the Managed Care Plan concurs with the result.
 - (c) Comments and errors identified are limited to the published rates reviewed and related Managed Care Plan hospice payments, and methodology, and/or calculations.

ATTACHMENT II
EXHIBIT II-B – UPDATE: OCTOBER 1, 2025
LONG-TERM CARE (LTC) PROGRAM

Section X. Method of Plan Payment

- (d) If the Managed Care Plan or the Agency comments that such an error has occurred, a new forty-five (45) day review period shall start on the date the Managed Care Plan receives the Agency's final determination of the reconciliation results. The Agency's final determination of the reconciliation results shall be final and conclusive. The Managed Care Plan may dispute the Agency's decision as per **Attachment II, Section XIV.**, Special Terms and Conditions, of this Contract, if it does not concur with the results.
 - (e) If the Managed Care Plan does not provide comments within the forty-five (45) day period, no further opportunity for review consideration will be provided.
- d. Patient Responsibility Reconciliation.
 - (1) The Managed Care Plan shall utilize patient responsibility as calculated by the Department of Children and Families (DCF) for each enrollee, in compliance with 42 CFR 435.622 and 435.725.
 - (2) Reconciliation Process
 - (a) The Agency will pay a blended capitation rate to the Managed Care Plan net of the expected patient responsibility set by the Agency.
 - (b) The Agency will annually reconcile between the expected patient responsibility deducted from the capitation rates and the actual patient responsibility calculated by the DCF.
 - (c) If the actual patient responsibility is greater than the expected patient responsibility, the Managed Care Plan shall pay the Agency the difference between the actual patient responsibility and the expected patient responsibility.
 - (d) If the actual patient responsibility is less than the expected patient responsibility, the Agency shall pay the Managed Care Plan the difference between the expected patient responsibility and the actual patient responsibility.
 - (e) The following process shall be used to finalize the reconciliation results:
 - (i) The Managed Care Plan shall review and provide written comments or a letter of concurrence to the Agency within forty-five (45) days after receipt of the reconciliation results. This letter of concurrence is considered final and binding if the Managed Care Plan concurs with the result. If the Managed Care Plan does not provide comments within the forty-five (45) day period, no further opportunity for review consideration will be provided.
 - (ii) If the Managed Care Plan or the Agency comments that an error has occurred, the Agency will consider the

comments and send a final determination of the reconciliation results. A new forty-five (45) day review period shall start on the date the Managed Care Plan receives the Agency's final determination of the reconciliation results. The Agency's final determination of the reconciliation results shall be final and conclusive. The Managed Care Plan may dispute the Agency's decision as per **Attachment II , Section XIV.**, Special Terms and Conditions, of this Contract, if it does not concur with the results.

- (3) Hospice and Patient Responsibility Collection Reconciliation Schedule. The Agency will announce the reconciliation schedule after the close of each capitation rate period. The Managed Care Plan shall respond to any Agency requests for additional information concerning the reconciliation within fifteen (15) days of notification.
- (4) Actual hospice payments shall be reconciled by the Agency to ensure actual claim payments are, at a minimum, the same as Medicaid FFS claim payments. Any Managed Care Plan provider payments to hospices in excess of FFS claim payment will not be reimbursed by the Agency or in any way increase per member per month payment to the Managed Care Plan in any current or future capitation rate setting period. The Managed Care Plan accepts and assumes all risks of excess payments as a cost of doing business and cannot seek additional Medicaid payments for such business decisions. Any inadvertent payments made by the Agency to a Managed Care Plan in excess of the FFS amount shall be overpayments and shall be recouped.

3. Errors

There are no additional errors provisions unique to the LTC managed care program.

4. Enrollee Payment Liability Protection

There are no additional enrollee payment liability protection provisions unique to the LTC managed care program.

- 5.** The Agency reserves the right during the Contract term to implement a quality incentive withhold and/or quality preferred assignment incentive based on high performance on LTC quality measures.

6. Achieved Savings Rebate

In order to be eligible to retain up to an additional one percent (1%) of revenue in the first year, a Managed Care Plan shall exceed the specified threshold for each, and all performance measures as listed in the Performance Measure Thresholds Table, **Table 6**, below:

7. Community High Risk Pool (CHRP)

- a. The Community High Risk Pool (CHRP) for the SMMC LTC program recognizes the disproportionate enrollment of high cost HCBS recipients. The CHRP operates as a revenue neutral redistribution of plan reimbursement associated with community enrollees. The risk pool is funded through a small withhold amount applied to the pre-transition adjusted HCBS enrollment for the LTC contractor. Encounter data submissions are required in accordance with **Attachment II, Section IX.**, Administration and Management. The Agency shall analyze the LTC encounter data submitted by the Managed Care Plan.
 - (1) Only HCBS will be used to evaluate the SMMC LTC risk pool for enrolled recipients.
 - (2) Costs associated with nursing facility services and hospice services are explicitly excluded from the distribution of the risk pool.
- b. The Agency will establish a withhold per-member-per-month (PMPM) on a quarterly basis.
 - (1) The withhold PMPM will use only State plan or waiver approved services and exclude nursing facility and hospice services.
 - (2) The CHRP will be established by SMMC LTC region.
 - (3) The Agency may adjust the PMPM withhold value on a quarterly basis as necessary.
 - (4) The Agency shall communicate the terms of the CHRP including the threshold and coinsurance amount each quarter.
 - (5) The established CHRP withhold will be applied to the pre-transition HCBS enrollment on a monthly basis.
- c. The Agency will distribute the funds in the CHRP in proportion to each Managed Care Plan's reported or Agency adjusted expenditures in excess of the CHRP threshold average PMPM for HCBS recipients for the quarterly period.

ATTACHMENT II
EXHIBIT II-B – UPDATE: OCTOBER 1, 2025
LONG-TERM CARE (LTC) PROGRAM

Section X. Method of Plan Payment

- d. The Agency will utilize encounter data submitted by the Managed Care Plan and the enrollment maintained by the Agency to evaluate Managed Care Plan expenditures for the purpose of distributing the CHRP funds. Encounter data shall be submitted in accordance with **Attachment II, Section IX., Administration and Management.**
 - (1) The Agency shall aggregate the qualified service expenditures from the encounter data by Managed Care Plan for the quarter based on incurred date reported on the encounter data for HCBS recipients who were eligible on the date of service. The Agency, at its discretion, may reprice encounter data based on what the Agency would have paid for the same services under FFS.
 - (2) The CHRP distributions will occur every three (3) months using the following schedule:
 - (a) May Disbursement – Claims incurred September – November, paid and submitted through February.
 - (b) August Disbursement – Claims incurred December – February, paid and submitted through May.
 - (c) November Disbursement – Claims incurred March – May, paid and submitted through August.
 - (d) February Disbursement – Claims incurred June – August, paid and submitted through November.
 - (3) At the end of each twelve (12) month period, in the event the eligible expenditures for the CHRP are less than the total amount withheld, the Agency shall refund the balance of the withheld amount less any disbursement for eligible expenditures to the Managed Care Plans participating in the region.
 - (4) At the end of each twelve (12) month period, in the event the Managed Care Plan(s) in a region do not have any HCBS recipients whose expenditures meet the threshold, the Agency shall refund the withheld amounts to the Managed Care Plans participating in the region.
 - (5) At the end of each twelve (12) month period, the Agency will close the funds, eliminating any carry over balances, and return any unused portion of each regional fund to the Managed Care Plans operating in that region on a per member basis. The Agency, at its discretion, may distribute any unused portion of the funds from the pool before the end of the twelve (12) month period.
- e. The Agency may adjust prior CHRP distributions if the encounter data used for the original CHRP distribution has changed through adjustments submitted in the encounter data that may include but are not limited to voided and replaced encounters submitted by the Managed Care Plans or a recipient's retro-active disenrollment from the SMMC LTC program. Twelve (12) months after the end of the quarter, the Agency will make no further post-payment adjustments.

- f. The Agency retains the right to update the withhold percentage on a quarterly basis, if needed. Inclusion of this information in the LTC data book does not imply the continued due of CHRP, and it does not imply that the methodology of CHRP will stay the same if it continues.
